L'AZIENDA
The Company
l'Entreprise

La dedizione e la competenza di una famiglia si è evoluta, in più di mezzo secolo ed attraverso tre generazioni, verso l'eccellenza industriale: una delle pochissime, vere fonderie diventa fucina di idee e culla di nuovi processi creativi e produttivi, punto di riferimento per la fornitura di accessori nautici e non solo. Oggi, grazie alla nuova sede di Adro, la ricerca e la passione che contraddistinguono Foresti & Suardi vanno in scena anche nel cuore della Franciacorta. L'acquisizione nel 2001 di Azur Inox Marine, basata a Saint Raphael in Francia, permette a Foresti & Suardi di affacciarsi sul mercato francese del Made in Italy d'eccellenza, tramite una delle principali società di distribuzione.

The commitment and expertise of a family has evolved towards industrial excellence, throughout more than half a century and three generations: one of the few real foundries has become a forge of ideas and cradle of new creative and productive processes, a benchmark for the supply of nautical accessories and more. Today, thanks to new plant in Adro, the research and passion which made Foresti & Suardi outstanding are on stage also at the heart of Franciacorta district. In 2001, the acquisition of Azur Inox Marine, based in Saint Raphael (France) allowed Foresti & Suardi to make a stand on French market of premium Made in Italy goods, through one of its more prestigious dealers.

Le dévouement et la compétence d'une famille ont évolué, en plus d'un demi-siècle et à travers trois générations, vers l'excellence industrielle : l'une des rares et véritables fonderies devient un foyer d'idées et le berceau de nouveaux processus créatifs et productifs, point de référence pour la fourniture d'accessoires nautiques et autres. Aujourd'hui, grâce au nouveau siège d'Adro, la recherche et la passion qui distinguent Foresti & Suardi sont également mises en scène au cœur de Franciacorta. L'acquisition en 2001 d'Azur Inox Marine, basée à Saint Raphaël en France, permet à Foresti & Suardi de se positionner sur le marché français du Made in Italy d'excellence, via l'une des principales sociétés de distribution.

LA PRODUZIONE
The production
La production

La produzione rimane il nucleo degli stabilimenti, nei quali gli operatori, selezionati per competenza ed esperienze, sono suddivisi in reparti specializzati sulle diverse fasi di lavorazione: il reparto di meccanica realizza stampi e attrezzature con cui, nel reparto fonderia, l'ottone viene fuso e iniettato, per poi essere rifinito e lavorato nel reparto lavorazioni, dotato di macchinari all'avanguardia, tutti a controllo numerico. Da qui esce il pezzo definitivo, che sarà successivamente sottoposto a lucidatura e rivestimenti galvanici presso artigiani esterni e, tornato in azienda, assemblato e impacchettato. Una ricerca continua ed approfondita su altri materiali, quali alluminio ed acciaio inox, ha portato oggi Foresti & Suardi all'eccellenza anche in queste lavorazioni.

The commitment and expertise of a family has evolved towards industrial excellence, throughout more than half a century and three generations: one of the few real foundries has become a forge of ideas and cradle of new creative and productive processes, a benchmark for the supply of nautical accessories and more. Today, thanks to new plant in Adro, the research and passion which made Foresti & Suardi outstanding are on stage also at the heart of Franciacorta district. In 2001, the acquisition of Azur Inox Marine, based in Saint Raphael (France) allowed Foresti & Suardi to make a stand on French market of premium Made in Italy goods, through one of its more prestigious dealers.

La production reste le noyau des établissements, dans lesquels les opérateurs, sélectionnés pour leurs compétence et expérience, sont divisés en départements spécialisés sur les différentes phases d'usinage : le département de mécanique réalise des moules et des équipements avec lesquels, dans l'atelier de fonderie, le laiton est fondu et injecté, pour ensuite être fini et travaillé dans le département d'usinage, équipé de machines avant-gardistes à commande numérique. De là sort la pièce définitive qui sera ensuite soumise au polissage et aux revêtements galvaniques chez des artisans extérieurs et, de retour dans l'entreprise, assemblée et emballée. Une recherche continue et approfondie sur d'autres matériaux, tels que l'aluminium et l'acier inoxydable, a conduit aujourd'hui Foresti & Suardi à l'excellence même dans ces usinages.

REALIZZAZIONI SU MISURA

Custom made

Réalisations sur measure

Le richieste della nostra clientela sono spesso diversificate: in Foresti & Suardi, il valore aggiunto è una flessibilità fatta di attrezzature ed operatori in grado di realizzare il prodotto in base alla conoscenza della storia, dei gusti e delle specifiche esigenze del committente. Il nostro ufficio tecnico collabora anche con i progettisti dei singoli cantieri, per realizzare gli accessori su loro disegno. Assistenza e completa disponibilità sono garantite, dalla fase di progettazione fino a quella di post-vendita. La possibilità di scegliere da una gamma notevolmente diversificata di prodotti personalizzati, dagli accessori alle rubinetterie, dagli elementi illuminotecnici ai complementi di arredo, si sposa con la serenità di poter contare su un servizio dedicato al cliente prima, durante e dopo l'acquisto.

Customers' requests are numerous and varied: in Foresti & Suardi, the value added is a flexibility made of apparels and operators, able to carry out production according to the knowledge of history, taste and specific needs of the customer. Our technical department also works with each shipyard professionals, to produce accessories from their own design. Assistance and complete disposability are granted, from the design to the after-sales stage. The chance to choose from a wide range of custom products, from accessories to taps, from lighting elements to furnitures goes together with the serenity of dealing with a dedicated service, before, during and after the purchase.

Les exigences de notre clientèle sont souvent diversifiées: chez Foresti & Suardi, la valeur ajoutée est une flexibilité faite d'équipements et d'opérateurs capables de réaliser le produit en fonction de la connaissance de l'histoire, des goûts et des exigences spécifiques du client. Notre bureau technique collabore également avec les concepteurs des différents chantiers, pour réaliser les accessoires sur leur dessin. Assistance et disponibilité complète sont garanties, de la phase de conception jusqu'à celle de l'après-vente. La possibilité de choisir parmi une gamme remarquablement diversifiée de produits personnalisés, des accessoires à la robinetterie, des éléments d'éclairage aux accessoires d'ameublement, se marie avec la sérénité de pouvoir compter sur un service clients dédié avant, pendant et après l'achat.

SUARDI

FATTO IN ITALIA
Made in Italy
Fabriqué en Italie

Nel 2019, Foresti & Suardi ha ottenuto la prestigiosa certificazione 100% Made in italy, rilasciato dall'istituto per la tutela dei produttori italiani e riservato a quante, tra le aziende associate a Confindustria Nautica, si distinguano per precisi requisiti. In particolare, le produzioni devono essere ideate e fabbricate interamente in Italia, costruite con materiali naturali di qualità e sulla base di lavorazioni tradizionali tipiche ed infine realizzate nel rispetto del lavoro, della sicurezza e dell'igiene. Foresti & Suardi è pertanto orgogliosa di avere il proprio ruolo nel rappresentare l'eccellenza italiana nel mondo.

In 2019, Foresti & Suardi has obtained the prestigious 100% Made in Italy, certificate released by the Institute for Italian manufacturers' protection and reserved to outstanding firms. Specifically, the productive processes must be entirely planned and carried out in Italy; products must be made of natural and high-quality materials and based on typical craftsmanship; finally, working rifghts, safety and hygiene must be respected. Foresti & Suardi is proud to have its own role in representing Italian excellence worldwide.

En 2019, Foresti & Suardi a obtenu la prestigieuse certification 100% Made in Italy, délivrée par l'institut pour la protection des producteurs italiens et réservée à ceux qui, parmi les entreprises associées à Confindustria Nautica, se distinguent par des exigences précises. En particulier, les productions doivent être conçues et fabriquées entièrement en Italie, construites avec des matériaux naturels de qualité et sur la base de procédés traditionnels typiques et enfin réalisées dans le respect du travail, de la sécurité et de l'hygiène. Foresti & Suardi est donc fière d'avoir son rôle dans la représentation de l'excellence italienne dans le monde.

PERIZIA ARTIGIANALE E TECNOLOGIA D'AVANGUARDIA

Expert craftsmanship and cutting-edge technology

Un savoir-faire expert et une technologie de pointe

Il trasferimento del reparto produttivo presso la moderna sede di Adro, in Franciacorta, ha permesso a maestranze già esperte di ottimizzare e controllare i processi di lavorazione, incrementandone l'efficienza e mantenendo intatta la qualità straordinaria di pezzi forgiati singolarmente.
Più spazio a disposizione per il montaggio e con macchine all'avanguardia, più tempo da impiegare nel controllo e nella finitura dei pezzi, per un risultato ineguagliabile.

The transfer of the production department to the modern headquarters in Adro, Franciacorta, has allowed our already experienced workers to optimize the control of the manufacturing processes. This has increased efficiency and maintains the extraordinary quality of individually forged pieces. This move had delivered more space for assembly, cutting-edge modern machinery and more time for finishing and checking the pieces, for an unparalleled result.

Le transfert du département de production au siège moderne d'Adro, en Franciacorta, a permis à des ouvriers déjà expérimentés d'optimiser et de contrôler les processus de travail, en augmentant l'efficacité et en maintenant intacte la qualité extraordinaire des pièces forgées individuellement.
Plus d'espace à disposition pour le montage et avec des machines avant-gardistes, permettent de consacrer davantage de temps au contrôle et à la finition des pièces pour un résultat incomparable.

I LABORATORI
The laboratories
Les laboratoires

Un team di tecnici simula ed esaspera virtualmente gli ambienti in cui verranno collocati i prodotti, misurandone comportamenti ed effetti. Nebbia salina, shock meccanici, stress elettrici e altri trattamenti intensivi, riproducono in poche ore gli effetti di decine di anni di funzionamento delle strutture e delle apparecchiature.

A team of technicians virtually simulates and intensifies the projected environment in which the products will be placed to measure the behaviour and any side-effects. Salt spray, mechanical shocks, electrical stresses and other intensive treatments replicate, in a few hours, the effects of tens of years of operation on the structures and fittings.

Une équipe de techniciens simule et expérimente virtuellement les environnements dans lesquels les produits seront placés, en mesurant leur comportement et leurs effets. Brouillard salin, chocs mécaniques, stress électrique et autres traitements intensifs, reproduisent en quelques heures les effets de dizaines d'années de fonctionnement des structures et des équipements.

NEBBIA SALINA

Salt spray

Brouillard salin

Il test in nebbia salina ASTM B117 ha lo scopo di simulare gravi condizioni di corrosione e viene utilizzato come controllo qualità per tutti i prodotti.
I test vengono eseguiti per settimane e persino mesi per assicurare che l'apparecchio possa sopravvivere anche in ambiente marino a lungo tempo senza subire conseguenze estetiche e funzionali dannose. Grazie inoltre all'esperienza di installazioni frontemare e nautiche, maturata negli anni scorsi, possiamo fornire prodotti definibili "ETERNI".

The ASTM B117 salt spray test is intended to simulate severe conditions of corrosion and is used as a quality control for all products. Tests are performed for weeks and even months to ensure that the device can survive long-term exposure in the marine environment, without suffering harmful aesthetic or functional consequences. Thanks also to the experience of working with coastal and nautical installations, gained over the years, we can provide products that can be defined as "ETERNAL".

L'essai au brouillard salin ASTM B117 est destiné à simuler des conditions de corrosion graves et est utilisé comme contrôle qualité pour tous les produits.
Les tests sont effectués pendant des semaines et même des mois pour s'assurer que l'appareil peut survivre même dans l'environnement marin pendant longtemps sans subir de conséquences esthétiques et fonctionnelles néfastes.
En outre, grâce à l'expérience d'installations front-mer et nautiques, acquise ces dernières années, nous pouvons fournir des produits définissables " ETERNELS".

INOX LINE

INOX LINE
INOX LINE

L'offerta di accessori nautici by Foresti & Suardi è in continua crescita in termini di modelli, materiali e finiture. Una delle serie di cui andiamo particolarmente orgogliosi è la INOX LINE.
Una linea pensata per accessori tecnici come cerniere e bitte realizzati in acciaio inox AISI 316 L, che dona ai pezzi una lucentezza e uniformità cromatica degni di un prezioso.
Prodotti unici, dal design ricercato, che hanno già fatto scuola per il loro aspetto contemporaneo e al contempo innovativo. Il valore aggiunto che esprimono una volta installate a bordo è di conferire "quel tocco in più", oltre alla certezza di essere oggetti destinati a durare per sempre.
INOX LINE di Foresti & Suardi è un ulteriore esempio di come la nostra Azienda intenda il rapporto con il cliente finale, basandolo sull'offerta della qualità che dura nel tempo e soddisfando le aspettative di chi è alla ricerca di prodotti firmati da un nome che è, e resterà, una garanzia.

The nautical accessories series by Foresti & Suardi is constantly increasing in terms of models, materials and available finishes. One of the series we're particularly proud of is the INOX LINE.
INOX LINE includes technical accessories such as hinges, handles and cleats.
All the products are made with stainless steel AISI 316 L, giving the pieces a gloss and a chromatic uniformity worthy of a precious jewel.
Our INOX LINE products have already become a benchmark for their contemporary and innovative look and for the added value they give once installed on board, transforming a normal deck into a new and well-finished environment and with that "plus" that will last beyond the boat's lifetime.
INOX LINE is a further example of how our Company intends the relation with the customers: basing it on the quality and durability of the products and always listening to the expectations of anyone who would like to equip or furnish his yacht with objects signed by with a name that is, and always will be, a guarantee.

La gamme d'accessoires nautiques Foresti & Suardi est en constante évolution (n° de références, matériaux, finitions innombrables). L'une des séries dont nous sommes particulièrement fiers est l'INOX LINE car elle exprime pleinement notre culture du design dans le choix des matériaux, dans la conception de la forme, dans la qualité des composants et le soin des finitions.
INOX LINE est le TOP de gamme des accessoires techniques qui comprennent charnières, poignées et éléments de fixation et d'amarrage, le tout en acier INOX AISI 316 L, garantie de «brillante» résistance aux éléments, d'une remarquable fonctionnalité, d'un design incomparable qui fera du deck de votre yacht un espace de vie sans pareil.
INOX LINE de Foresti & Suardi est l'exemple ultime de notre savoir-faire, de notre culture de l'utile et de l'agréable, de notre connaissance abyssale du monde de la plaisance, de notre profonde entente avec nos clients qui veulent compléter leur environnement, leur cadre de vie en mer comme sur terre d'éléments de vrai design, qui font la différence, encore et toujours, signé d'un nom qui est et restera une garantie de valeur et de qualité.

ALLUMINOX

ALLUMINOX
ALLUMINOX

ALLUMINOX rappresenta per Foresti & Suardi un percorso storico di eccellenza nella realizzazione di accessori custom per imbarcazioni da diporto, coniugando l'artigianalità dei processi alla precisione esecutiva.
Oggi, nella sede di Adro in Franciacorta, il processo di innovazione ha permesso alle maestranze esperte di di ottimizzare e controllare i processi di lavorazione, incrementandone l'efficienza e mantenendo intatta la qualità straordinaria di pezzi forgiati singolarmente come parabrezza, porte scorrevoli, piscine idromassaggio, scale e tambucci.

ALLUMINOX represents for Foresti & Suardi a historical path of excellence in the creation of custom accessories for pleasure boats, combining the craftsmanship of the processes with executive precision.
Today, in the Adro headquarters in Franciacorta, the innovation process has allowed the expert workers to optimize and control the manufacturing processes, increasing their efficiency and keeping intact the extraordinary quality of individually forged pieces such as windshields, sliding doors, hydromassage pools, stairs and companionways.

ALLUMINOX représente pour Fores4 & Suardi un parcours historique d'excellence dans la création d'accessoires personnalisés pour bateaux de plaisance, conjuguant l'artisanat des processus à la précision exécutive (précision d'exécution).
Aujourd'hui, au siège d'Adro à Franciacorta, le processus d'innovation permet à des ouvriers déjà experts d'optimiser, de contrôler les processus d'usinage et d'accroître leur efficacité tout en maintenant intacte la qualité exceptionnelle de pièces fabriquées individuellement telles que pare-brise, portes coulissantes, piscines hydromassantes, escaliers et tambules.

ALLUMINOX

ALLUMINOX
ALLUMINOX

Dalla pluridecennale esperienza Alluminox è nata una divisione dedicata all'interno di Foresti & Suardi: una linea di componenti nautiche in acciaio inox, realizzate su misura e su disegno per i clienti più prestigiosi.

Pezzi unici oppure pensati per la produzione di serie, destinati a sposare le linee di splendide imbarcazioni con il loro gioco di riflessi su superfici metalliche, delicatamente e sapientemente incurvate.

From several decades of Alluminox expertise, a specific division is born within Foresti & Suardi: a series of nautical accessories in stainless steel, custom made for the most prestigious clients.

One-off pieces, or even designed for series production, made to complete the lines of gorgeous boats with their game of reflections on metal surfaces, kindly and wisely curved.

Les décennies d'expérience d'Alluminox ont donné naissance à une division dédiée au sein de Foresti & Suardi : une ligne de composants nautiques en acier inoxydable, réalisés sur mesure et sur dessin pour les clients les plus prestigieux.

Des pièces uniques ou conçues en série limitée, destinées à magnifier les lignes de splendides bateaux avec leur jeu de reflets sur des surfaces métalliques, délicatement et habilement incurvées.

LIGHT DESIGN

LIGHT DESIGN
LIGHT DESIGN

Una delle prime aziende italiane a credere nell'implementazione, massiccia e diversificata, della tecnologia LED, Foresti & Suardi è forte di una lunga tradizione nell'ambito dell'ideazione e produzione di elementi illuminanti. Inizialmente destinata agli ambienti marini, la gamma di lampade, faretti, applique e plafoniere prodotta negli stabilimenti di Predore si è ampliata e arricchita in termini di stili, forme, materiali e campi applicativi. Forte del know-how tecnico e stilistico consolidatisi in più di 50 anni di attività, grazie al quale le è possibile modellare i più svariati metalli (ottone, acciaio, alluminio...) e accoppiarli a vetro, pelle e legni pregiati, Foresti & Suardi è riuscita a progettare e realizzare diversi tipi di articoli per illuminazione, partendo dalle più tradizioni applique e plafoniere in stile prettamente marino per proporre soluzioni sempre più moderne e contemporanee.
L'approccio tecnologico innovativo di cui si scriveva è visibile, per fare un esempio, nella realizzazione dei nuovi profili LED in elastomero siliconico co-estruso termo-dissipante, un materiale dalle performance uniche, utilizzato per la prima volta, nel campo applicativo in fattispecie, proprio da Foresti & Suardi.
Tutto il catalogo, ovviamente, è a prova di ambiente nautico, ostile, e quindi applicabile anche in ambiti più terrestri come le abitazioni private, porti e marine. L'offerta è ampia e comprende anche articoli prettamente tecnici con cui progettisti e designer d'interni si possono sbizzarrire, come strisce LED, lampadine, alimentatori o centraline RGB.

One of the first Italian companies that believed in the implementation, massive and diversified, of LED technology, Foresti & Suardi has a strong tradition in designing and creating lighting elements and complements. Initially intended for marine environments, the series of lamps and spots produced inside the Predore's factory evolved and extended to other application fields and also in terms of materials, styles and forms. The 50 years knowhow allows Foresti & Suardi to model many metals and mix them with glass, leathers and woods, creating a very huge catalogue of illumination articles, form the traditional marine style wall and ceiling lamps, to lots of new modern and contemporary solutions.
The technical approach, mentioned above, is visible, for example, in the new LED profiles, made of silicon extruded elastomer, an innovative and thermo-dissipating material, with unique performances, used for the first time by Foresti & Suardi.
The entire catalogue, obviously, is proof against the marine environment, typically hostile, and so applicable in more terrestrial fields like civil houses, ports and marinas. The offer is wide and includes also technical products, usable by designers and architects in their projects: LED stripes, light bulbs, power supplies, RGB control units.

L'une des premières sociétés italiennes à croire et à investir massivement et de manière diversifiée dans la technologie du LED fut Foresti et Suardi qui a dans le domaine de l'éclairage une longue expérience dans la conception, et la réalisation d' éléments illuminants. Grâce à l'expérience acquise au cours de plus 50 années de design et de «savoir fer» (maîtrisant tous les métaux du laiton, à l'acier, voire l'aluminium) assemblé à des matériaux nobles comme le verre, le cuir, le bois (dans ses essences les plus prisées), Foresti e Suardi a réalisé une gamme évolutive de solutions d'éclairage initialement dessinées pour la marine, mais qui s'insèrent aussi parfaitement dans des architectures modernes et contemporaines.
Tous les produits du catalogue sont à l'épreuve de l'environnement marin, capables de résister aux embruns, et donc – qui peut le plus peut le moins – parfaitement adaptés à des contextes de vie «terrestes» moins rigoureux , moins hostiles et plus favorables comme le peuvent être des habitations civiles, des édifices en bord de mer (immeubles de résidence privés, hôtels...). L'offre de Foresti e Suardi en matière et manière d'éclairage est ample... et sans limites: les produits techniques tels des bandes de LED, des lampes, des alimentateurs et des cellules de gestion RGB permettront aux Lighting designers et architectes de concevoir des solutions... lumineuses.

ECOLIGHT
EFFICIENZA E PROFESSIONALITA' PER L'AMBIENTE

La sensibilità aziendale in merito ai temi di Eco-compatibilità e Risparmio energetico, ci hanno consentito, fin dall'inizio, di investire nella progettazione e realizzazioni di apparecchi di illuminazioni dal alto contenuto ecologico: Le strutture in metallo, l'ottone in modo particolare, rendono l'80% dei nostri componenti riciclabili al 100%.L'impiego e la costante ricerca nel campo della tecnologia LED, adottata fin dal principio, ci ha permesso di realizzare apparecchi di illuminazione sempre più efficienti ed a basso consumo energetico, contribuendo a ridurre i consumi di energia nel rispetto dell'ambiente.

Our company's position with regard to Eco-friendly and energy saving products has ensured that we have invested heavily in the design and production of lighting with a focus on eco-sustainability. The metal components used, the majority of which are brass, ensure that 80% of our lighting components is 100% recyclable.

The work and constant research that goes in to our LED technology has permitted us to develop more and more energy efficient lighting, playing our part in reducing the global energy consumption and protecting the environment.

Nôtre sensibilité sur les questions écologiques et d'économie d'énergie, nous a permis du depuis le début d'étudier et de réaliser des appareils d'éclairage avec une grande valeur de sauvegarde de l'environnement. Le métal, et plus précisément le laiton, utilisé pour la fabrication de nos appareils permet d'avoir, sur 80% de nos composants, 100% de recyclage. La recherche et l'implication de la technologie LED, utilisé depuis le début, nous a permis de réaliser des appareils d'éclairage très efficace et à basse consommation d'énergie, pour réduire les consommations dans le respect environnemental.

Idoneità d'installazione I *Suitability for installation* I Aptitude à l'installation

Gli aggiornamenti della norma EN 60598-1 hanno abolito la simbologia F, assumendo l'utilizzo di simbologie diverse solo per apparecchi non idonei al montaggio su superfici normalmente infiammabili. Per comodità e per la conoscenza acquisita dal mercato, manteniamo in questo catalogo la vecchia simbologia.

The F symbol has been abolished from the En 605598 normative and different symbols used to identify if the fitting is not suitable for surfaces normally inflammable. For convience and recognisation in this field we will continue to use the old F symbol.

Les mises à jour de la norme EN 60598-1 ont supprimé le symbole F, remplacé par de nouveaux symboles spécifiques aux appareils installés sur des surfaces inflammables. Par commodité, nous avons conservé le symbole F dans le catalogue.

Grado di protezione | *Degree of protection* | Dègrèe de protection

Il **grado IP** indica le caratteristiche di protezione fornite dall'apparecchio contro le penetrazioni di solidi e liquidi. La prima cifra identifica il grado di protezione contro i corpi solidi mentre la seconda cifra indica il grado di protezione contro i liquidi.

*The **IP degree** informs about the protection degree of the luminaire against solid and liquid objects the penetration. The first identifies the protection degree against solid objects, while the second figure identifies the protection degree against liquids.*

Le **dégrée IP** montre les caractéristiques de protection fournies par l'appareil contre la pénétration des objets solides et liquides. Le premier chiffre identique montre le dégrée de protection contre les liquides.

IP20
Protezione contro l'ingresso di corpi solidi superiori a 12 mm. Nessuna protezione contro la pioggia.
Protected against solid objects greater than 12 mm. Non protected against liquids.
Protection contre les corps solides supérieurs à 12 mm. Aucune protection contre la pluie.

IP43
Protezione contro l'ingresso di corpi solidi superiori a 1mm e alla pioggia.
Protected against solid objects greater than 1mm, protected against rain.
Protection contre les pénétrations des corps solides supérieurs à 1 mm et contre la pluie.

IP 43/20
Protezione parte esterna IP43 e parte interna all'incasso IP20.
Protection outside IP43 and recessed part IP20.
Protection à l'extérieur IP43 - Protection à l'intérieur IP20.

IP65
Protezione totale contro la penetrazione di polvere e contro getti d'acqua provenienti da ogni direzione.
Dust-tight, protected against water jets.
Protection totale contre la poussière et contre toutes pulvérisations d'eau.

IP 65/20
Protezione parte esterna IP65 e parte interna all'incasso IP20.
Protection outside IP65 and recessed part IP20.
Protection à l'extérieur IP65 - Protection à l'intérieur IP20.

IP67
Protezione totale contro la penetrazione di polvere e stagno all'immersione temporanea.
Dust-tight, protected against the effects of temporarily immersion.
Protection totale contre la poussière et contre toute immersion temporaire.

IP68
Protezione totale contro la penetrazione di polvere e stagno all'immersione continua nelle condizioni specificate dal costruttore.
Dust-tight, the equipment is suitable for continuous immersion in water under conditions which shall be specified by the manufacturer.
Protection totale contre la poussière et contre toute immersion temporaire sous les conditions spécifiées par le constructeur.

IP54
Protezione contro la polvere tale da non interferire con il funzionamento del dispositivo e spruzzi d'acqua da qualsiasi direzione.
Protection against dust that does not interfere with the operation of the device and splashes of water from any direction.
Protection contre la poussière qui n'interfère pas avec le fonctionnement de l'appareil et les éclaboussures d'eau de toutes directions.

Classi di protezione | *Classes of protection* | Classes de protection

Classe I
Apparecchio con messa a terra (Classe I).
Earthened light fitting (Class I).
Appareil avec mise à terre (Classe I).

Apparecchio privo di messa a terra , con doppio isolamento (Classe II).
Unearthened light fitting (Class II).
Appareil sans mise à terre, avec double isolation (Classe II).

Apparecchio a bassissima tensione di sicurezza , inferiore a 50V (ClasseIII)
Light fitting with very Low Safety Voltage (Class III).
Appareil à basse tension de sécurité, inferieur à 50V (Classe III).

Tipo di installazione | *Type of installation* | Tipe d'installation

Ad incasso. Installazione fissa a parete e soffitto.
Recessed wall or ceiling installation.
Encastrement : horizontale et verticale.

Ad incasso. Installazione fissa a soffitto
Rrecessed ceilling installation.
Encastrement : Pour installation fixe au plafond.

No incasso. Installazione fissa a soffitto.

Conformità | *Conformity* | Conformité

Gli apparecchi di illuminazione presenti nella linea STARLIGHT® sono concepiti, costruiti e testati in conformità alle seguenti Norme Europee: EN 60598-2-2: 2012. E quindi sono conformi ai requisiti essenziali delle Direttive Europee: 2014/35/UE Direttiva BT Bassa Tensione; 2014/30/UE Direttiva EMC Compatibilità Elettromagnetica.

All the light fittings in the STARLIGHT® range are designed, assembled and tested according to the following European norms and conformities and therefore meet the following Euproean directives. 2014/35/UE BT low voltage directive; 2014/30/UE EMC electro-magnetic directive.

Les appareils d'éclairage dans la gamme STARLIGHT® sont conçus, fabriqués et testés en conformité aux Normes Européennes: EN 60598-2-2 :1996+A1 :1997 utilisé avec la norme EN 60598-1 :2008+A 11 :2009 Et donc sont conformes aux recommandations essentiales des Directives Européennes: 2014/35/UE Directive BT Basse Tension; 2014/30/UE Directive EMC Compatibilité Electromagnétique.

F&S SYSTEM

E' un sistema di installazione ideato per il fissaggio di spot incassati a filo pannello, che permette la loro installazione direttamente sulla parte frontale come semplici spot ad incasso con fissaggio a molla.
Il sistema consente l'installazione dei cielini corredati della sola ghiera accessorio fornita insieme al faretto, per poi procedere all'installazione elettrica ed incasso del faretto direttamente sul lato frontale.
Evitando così di dover premontate i faretti sul retro dei pannelli con tutte le problematiche di installazione che ne conseguono.
Inoltre in caso di manutenzione, il faretto può essere estratto frontalmente, per mezzo di una semplicissima chiave, senza dover procedere alla rimozione di nessun pannello.

It is an installation system designed to fix recessed spotlights flush with the panel. The system permits the product to be installed from the front of the installation surface, just as you would expect with simple recessed spots with a spring fixing.
The FS System makes use of a counter plate ring which is supplied with the product in order to allow the fitting to be wired and installed from the front. This avoids having to pre-install the fittings to the rear of the panels and the time-consuming extra work that results from this. More importantly, from a maintenance point of view, the spotlights can be simply removed from the front of the panel using the extraction key and without having to remove entire ceiling panels.

Il s'agit d'un système d'installation conçu pour fixer les projecteurs encastrés au ras du panneau, ce qui permet leur installation directement à l'avant comme de simples spots encastrés avec fixation à ressort.
Le système permet l'installation des plafonds équipés d'une seule bague d'accessoire fournie avec le projecteur, puis procède à l'installation électrique et au retrait du projecteur directement sur le côté avant.
Ainsi, vous évitez de devoir pré-installer les projecteurs à l'arrière des panneaux avec tous les problèmes d'installation qui en découlent.
De plus, en cas de maintenance, le projecteur peut être extrait frontalement, à l'aide d'une clé très simple, sans avoir à enlever n'importe quel panneau.

Punti forti di FS SYSTEM

- Nessuna pre-installazione dei faretti sul retro dei pannelli cielino
- Nessun pre-cablaggio elettrico da effettuare sui pannelli cielino
- Installazione e fissaggio diretto del faretto a soffitto terminato
- Manutenzione facilitata ed economica

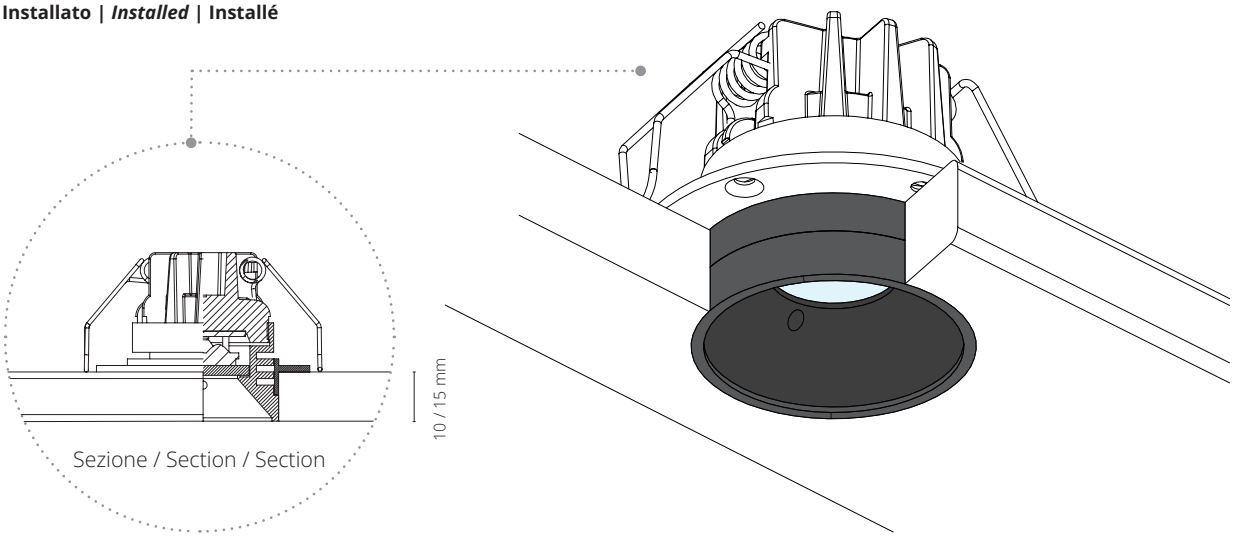

Advantages of FS SYSTEM

- *No pre-installation of spotlights to the rear of ceiling panels*
- *No pre-cabling required to the rear of ceiling panels*
- *Fittings can be installed to finished ceiling panel*
- *Easy and economical maintenance*

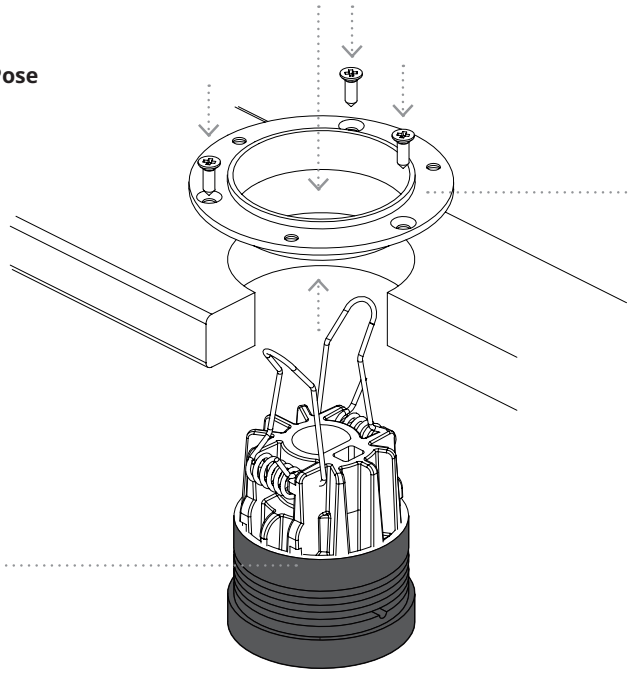

Points forts de FS SYSTEM

- Pas de pré-installation de projecteurs à l'arrière des panneaux de plafond
- Pas de pré-câblage électrique à partir deeffectuer sur les panneaux de plafond
- Installation et fixation directe du projecteur de plafond fini
- Maintenance facile et économique

DESIGN **IVAN BONARDI**

- Base di alimentazione a tenuta stagna con ghiera inox AISI 316 L.
- Contatti in ottone nichelato, struttura in ottone trattato galvanicamente.
- Versione con diffusore in vetro o con paralume conico.
- Fornito con Modulo LEXD bianco da 4000 °K.
- Studiata per applicazioni esterne per illuminazione notturna su tavoli e zone relax.
- Possibilità di applicazione di più basi di alimentazione per maggior funzionalità.
- Spegnimento della luce ottenuto girando di 90° il corpo lampada.

- *Watertight power base with AISI 316 L stainlees steel ring.*
- *Galvanised brass body, nickel-plated brass contacts.*
- *Available with glass or pleated fabric shade.*
- *Supplied with a white LED module, colour temperature 4000 °K.*
- *Designed to be used outdoors as a table lamp or in relaxation areas.*
- *Multiple power bases can be installED to give a greater flexibility of installation.*
- *The lamp is turned on and off by rotating the lamp's body by 90° degrees.*

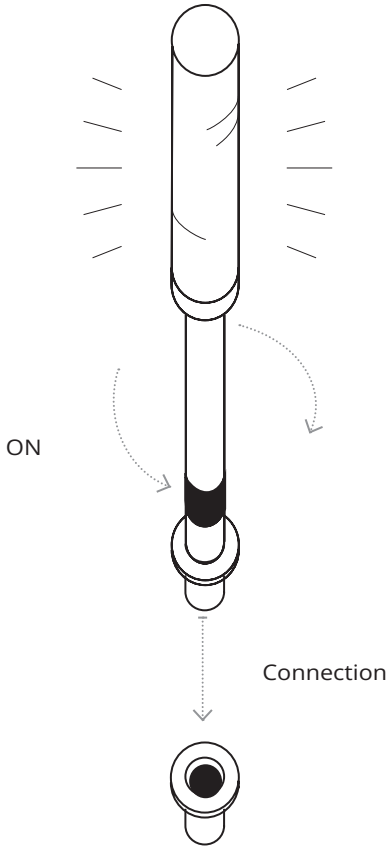

- Base d'alimentation étanche avec une virole inox AISI 316 L.
- Contcts en laiton et nickel, structure en laiton traité par galvanisation.
- Version avec diffuseur en verre ou avec abat-jour conique.
- Disponible avec LED blanc de 4000°K.
- Etudié pour applications extérieures pour éclairage nocturnes sur tables et zone relax.
- Possibilité d'application de bases d'alimentation pour une majeure fonctionnalité.
- Eteignement de lumière en tournant de 90° le corps de la lampe.

Faro di profondità con corpo in alluminio, adatto per illuminazione di manovra, di sicurezza e lavoro. Ad incasso.

Work light made with aluminium body. Ideal for either security, general work or maintenance and manoeuvring in low light conditions. Recessed.

Projecteur avec corps en aluminium, adapté à l'éclairage pendant les phases de manœuvre, de sécurité et de travail. Encastrer.

Prodotto ad altissime performance adatto all'illuminazione durante le fasi di manovra, di sicurezza e lavoro. Grazie alla combinazione dei vantaggi competitivi offerti dalla tecnologia LED questo faro offre:

- altissime prestazioni di efficienza luminosa con minimo consumo di energia;
- manutenzione zero: 50.000 ore di funzionamento al 100% di resa;
- sicurezza: omologato antiscoppio e certificato EMC (compatibilità magnetica

This LED work light is designed to illuminate a large outdoor space. It is ideal for either security, general work or maintenance and manoeuvring in low light conditions. This work combines all of the advantages of LED technology:

- *very high light output with minimum energy consumption;*
- *zero maintenance: 50,000 working hours at 100% yield;*
- *safety: approved anti-burst and certified EMC (Electromagnetic compatibility)*

Produit de haute performance adapté à l'illumination pendant les phases de manœuvre, de sécurité et de travail.

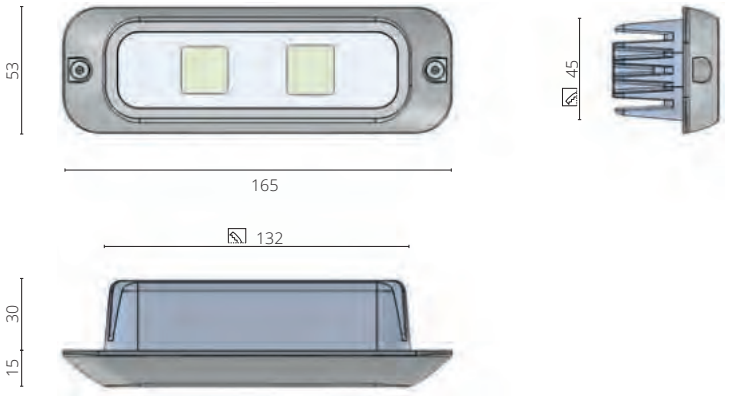

Grace à les combinaisons des avantages compétitifs de la technologie LED ce phare offre:

- très haut prestations d'efficacité lumineuse avec un minimum de consommation d'énergie;
- manutention zèro : 50.000 heures de fonctionnement au 100% de rentabilité;
- sécurité homologué anti éclatet certifié EMC (compatibilité électromagnétique).

DIMMER

Dimmer 6018

La centralina dimmer consente di regolare l'intensità luminosa degli apparecchi di illuminazione a lampada incandescenza e nella versione a LED (cfr. articoli sotto elencati). La centralina può essere gestita da:

- un pulsante "unipolare NA" con il quale si può accendere/spegnere o dimmerare l'intensità luminosa;
- un pulsante "unipolare doppio NA", un tasto per gestire l'aumento e il secondo per gestire la diminuzione dell'intensità luminosa.

This device allows the dimming of the light intensity emitted from either a bulb or LED module. The device can be controlled with:

- *a single pole switch, with which you can switch on/off or dim the light intensity;*
- *a double pole switch, one touch to dim down, one touch to dim up.*

Le dispositif dimmer permet de régulariser l'intensité lumineuse des appareils d'éclairage pour lampe à incandescence et dans la version LED (cfr. article ci-dessous mentionné). L'appareil fonctionne avec:

- un bouton "unipolaire NA" avec le quel on peut allumer ou éteindre ou varier l'intensité lumineuse;
- un bouton "unipolaire double NA", une touche pour gérer l'augmentation et le deuxième pour gérer la diminution de l'intensité lumineuse.

RGB device 6015

Centralina cromoterapia RGB I *Device RGB* I Contrôleur RVB

Il dispositivo è utilizzato per piccoli sistemi RGB a LED. Con tre semplici pulsanti, ed un interruttore on/off di alimentazione, è possibile scegliere fra le funzioni di giro colore (cromoterapia), illuminazione bianca e scelta e blocco su uno degli otto "colori memorizzati". Giro colori (cromoterapia): rosso, arancio, giallo, verde, blu, indaco, violetto. Illuminazione: bianco. Il dispositivo di corrente è adatto per tensioni di rete da 12 Vdc a 24 Vdc (continua e filtrata). Tutti gli apparecchi ad esso alimentati devono essere collegati in parallelo.

This device is useful for little systems RGB LED lighting. With three simple buttons and a power switch on/off, you can choose between the functions of a turn color (chromo-terapy), white lighting, choice and lock on one of eight colors stored. Turn color (Color): red, orange, yellow, green, blue, indigo, violet. Lighting: white. The device can be used for input from 12 Vdc up to 24 Vdc. All the devices feed by the converter have to be connected in parallel.

Le dispositif est nècessaire pour les petits systèmes RGB de lumières à LED. Avec trois boutons simples et un interrupteur on/off pouvoir, vous pouvez choisir entre les fonctions d'un virage de couleur,blanc, de choix et de verrouillage sur une huit couleurs stocèes. Virage couleur: rouge, orange, jaune, vert, bleu, indigo, violet. Eclairage: blanc Le dispoditif peut être utilisèe pour input de 12 Vdc au 24 Vdc. Toutes les LED de puissance doit être accouple en parallèle.

ACCESSORI I *ACCESSORIES* I ACCESSOIRES

Serratura in plastica I *Plastic latch* I Serrure en caoutchouc

Serratura in plastica per portelli e cassetti, a chiusura semplice a tavella e con doppia chiusura e antivibranti. Serrature opportunamente realizzate grazie ad un lungo lavoro di ricerca e sviluppo mirato alla funzionalità e praticità e alla resistenza contro la corrosione dell'ambiente marino. Interamente costruite in materiale plastico auto-lubrificante e molle in acciaio inox.

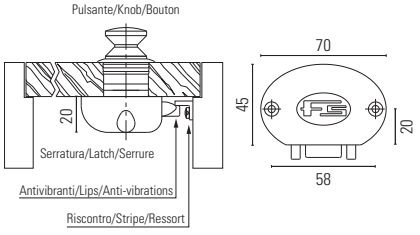

Plastic latch for cupboard doors with standard locking system and with double locking system and lip. These latches are the result of a long period of research and development aimed at improving practicality, functionality and, in particular, resistance against corrosion in the marine environment. They are completely produced in a self-lubricating plastic and contain stainless steel springs.

Serrure en caoutchouc pour portes et tiroirs avec fermeture simple à déclic et avec double fermeture anti vibrations. Serrures opportunément réalisées grâce à un long travail de recherche et de développement pour une fonctionnalité et praticité et à la résistance contre la corrosion de l'ambiance marin. Entièrement construit en caoutchouc lubrifié et ressorts en acier inox.

E500

Linea di tappi imbarco realizzati in conformità alla norma ISO 10088. Realizzati in ottone cromato con tre differenti tipologie di chiusura:

- Tappo con levetta a scomparsa per apertura.
- Tappo con sede per apertura a stella, tipo winch.
- Tappo con levetta per apertura e serratura con chiave.

Sono tutti fornibili con canotto da diam. 50 mm e 38 mm nella versione dritta e inclinata a 30°, entrambi con porta-gomma per l'alloggio del tubo di collegamento e completi di cavetto inox anti- garbuglio per non perdere il tappo durante la fase di riempimento serbatoio.

Oltre alle tipologie standard (Waste, Wate, Diesel, Fuel) la serie è completata dal tappo acque nere Pump out con canotto speciale Conforme alla norma ISO 8099-1.

E500

Our deck fillers range has been produced in accordance with ISO 10088. Deck fillers are in chromed brass, the range is available with three dedicated lid closing systems:

- *Filler lid with retractable handle.*
- *Filler lid with winch style 'star' key.*
- *Filler lid with key lock and lever.*

The range is made up of models suitable for 50 mm or 38 mm diameter hoses and can also be ordered with a straight or 30° inclined tube. All models feature an anti-tangle, stainless steel safety wire to ensure that the filler lid cannot be lost during the refilling process.

As well as the standard (Waste, Water, Diesel, Fuel) models, the range also features a black water 'pump out' model with an ISO 8099-1 conforming tube.

E500

Gamme de nables réalisé en conformité à la norme ISO 10088, en laiton chromé disponibles en trois typologies de fermeture:

- Bouchon avec fermeture à levier caché.
- Bouchon pour clé type winch.
- Bouchon avec fermeture à levier et serrure à clé.

Sont tous disponibles pour tuyau 50 ou 38 mm en version droit ou coudé à 30° avec système porte tuyau et avec câble inox pour la retenue du bouchon.

En plus de les versions standard (Waste, Water, Diesel, Fuel) la série comprend aussi les eaux noires Pump Out avec dériveur conforme à la norme ISO 8099-1.

ACCESSORI NAUTICI > Raccorderia

NAUTICAL ACCESSORIES > Fittings
ACCESSOIRES NAUTIQUES > Raccords

L'accessoristica nautica è ciò che ha reso Foresti & Suardi famosa nel mondo e riconosciuta come fornitore di primo livello in termini di qualità, affidabilità e gamma di prodotti.
La nostra produzione di accessori nautici rispecchia l'incessante modernizzazione di tutte le fasi produttive, che ci consente di porci come primi interlocutori di quegli armatori che vogliono il meglio per le loro imbarcazioni. La gamma di accessori nautici Foresti & Suardi è ricca di oggetti indispensabili e "tradizionali", che sono spesso rivisitati e riproposti in versione moderna: sono un esempio le bitte a scomparsa, gli alza paglioli a filo dalle più svariate forme e caratteristiche estetiche, gli appendiabiti ritraibili, i pulsanti per ante e le maniglie per porte.
Tutti accessori in cui è evidente la ricercatezza delle forme e la cura nei dettagli, a cominciare dalla componentistica che è garanzia di durata nel tempo.
Il nostro obiettivo resta la volontà di essere sempre un passo avanti alla concorrenza, osando e proponendo accessori destinati a diventare punto di riferimento per il mercato.

The marine accessories series are what made Foresti & Suardi a worldwide famous brand, renowned for being a first level provider in terms of quality, reliability and products' selection. Our production reflects the commitment and passion we put in every process, commitment and passion that are proven by the continuous improvement of every phase, allowing us to be the first interlocutor of the owners that want the best for their boats.
The nautical accessories by Foresti & Suardi includes indispensable and traditional objects, that are usually renewed and re-design in more modern versions.
Examples of this approach are the foldable and recessed cleats, the planar "alzapagliolo" of different forms and aesthetic characters, the foldable coat hangers, the shutter's buttons and door's z. In every accessory is perceptible the refinement of the forms and the care we put in the details, both hidden or visible, an starting from the components, guaranteed to last through time.
Our leitmotiv, anyway, is the will to be always one step ahead of the competitors, often daring and proposing accessories that, at a first glance, could appear excessive innovations but, after a short period, become the market's benchmark.

C'est grâce à sa gamme étendue d'accessoires destinés au nautisme de plaisance que Foresti & Suardi s'est fait connaître dans le monde entier comme fournisseur de premier rang tant pour la qualité de ses produits que pour la fiabilité de son service.
Notre production d'accessoires nautiques reflète notre constante de moderniser nos processus de production, notre profonde connaissance du marché et l'écoute des armateurs qui veulent le meilleur pour leurs embarcations nous ont affirmés comme l'interlocuteur privilégié des clients les plus exigeants.
La gamme des accessoires de nautisme Foresti & Suardi est riche d'objets indispensables et «traditionnels» souvent revisités et reproposés dans une version moderne complétée d'améliorations caractéristiques qui sont le résultat d'un design attentif à l'application du progrès technologique, à l'utilisation des matériaux les plus innovants.
Nombreux sont les exemples de cette interprétation créatrice qui conjugue la réalité de la tradition à l'anticipation des tendances: les taquets abattables, les ouvertures de coffre aux formes et caractéristiques esthétiques les plus variables, les cintres rétractiles, les boutons et poignées de porte et d'armoire. Tous ces accessoires où la recherche des formes et le soin apporté aux détails visibles et cachés sont la meilleure garantie de résistance au temps (de la qualité des composants à la subtilité des finitions).

ACCESSORI NAUTICI > Alluminio

NAUTICAL ACCESSORIES > Aluminium
ACCESSOIRES NAUTIQUES > Aluminium

Uno dei cardini attorno a cui ruota la politica di Foresti & Suardi è la scelta di "osare" e proporre alla clientela prodotti in continua evoluzione.
Va in questa direzione la gamma ALLUMINIUM LINE, nata dall'acquisizione di prodotti di una nota azienda del settore, e rinnovata applicando il meglio delle lavorazioni all'alluminio.
ALLUMINIUM LINE potrebbe dirsi il corollario della serie di accessori nautici in ottone, che si distingue per il valore aggiunto della leggerezza e del design, finalizzati al massimo rendimento in termini ergonomici, di fruibilità e durata. Solo per chi vuole il meglio.

One of the pivots of our production is the choice to "dare" and to offer to the customers a range in continuous evolution.
The ALLUMINIUM LINE series goes in this direction, and is born form the acquisition of excellent products from a renowned company, that we choose to modernize using the best possible aluminum treatments.
We can say that ALLUMINIUM is a corollary to the nautical accessories series produced with our usual maniacal finishes and with the added value of lightness. Dedicated to the owners that ask only the best.

L'un des maître mots de Foresti & Suardi est «oser» pour proposer à ses clients (même aux plus «conservateurs») une gamme de produits en continuelle évolution du point de vue technique et esthétique et répondre ainsi au besoin de trouver l'utile, l'agréable, en un mot le superflu, chose très nécessaire (selon Voltaire) pour améliorer la qualité de la vie à bord comme sur terre.
La gamme «ALUMINIUM LINE» est l'expression de cette culture du design: un matériau léger, aux prestations extraordinaires, parfaitement adapté aux conditions climatiques extrêmes, à la rigueur des embruns.
«ALUMINIUM LINE» est le pendant High Tech de notre gamme en laiton: des hublots, panneaux de pont et daviers impeccablement traités et finis pour résister au temps et satisfaire qui veut le meilleur.

I nostri oblò sono realizzati interamente in unica fusione in lega leggera di alluminio anodizzato. Una particolare frizione consente di regolare l'apertura su qualsiasi posizione, mentre il bloccaggio di chiusura viene assicurato da comode maniglie ruotanti. Un ingegnoso sistema permette inoltre l'impiego degli oblò per fasciami varianti dai 20 ai 45 mm, con il vantaggio di presentare la cornice esterna senza che alcuna vite o perno sia visibile. Una speciale guarnizione in neoprene assicura una perfetta tenuta stagna in qualsiasi condizione di tempo e di mare, mentre la piastra in PMMA dello spessore di 7 mm è disponibile nella colorazione standard grigio fumeè. Disponibie, separatamente come accessorio, la zanzariera removibile in plastica di colore bianco.

All our portlights are cast from an anodised light aluminium alloy. A special adjustable friction system allows for an almost infinite variation of open positions and locking is via a pair of rotating handles. A simple design allows the portholes to be fitted to hulls of varying thicknesses from 20 mm to 45 mm with the added advantage of having no screws or rivets visible on the exterior frame. A marine grade neoprene seal guarantees watertightness in all conditions and the 7 mm thick PMMA Perspex is supplied in a standard smoke grey colour. A removable white plastic mosquito net is available as an option.

Nos hublots, déjà utilisé sur des prestigieux bateaux sont témoins d'une haute qualité. En fusion d'alliage d'aluminium anodisée. Une particulière friction permet de réguler l'ouverture sur n'importe quelle position, cependant le verrouillage est assuré par des poignées tournantes confortables. Un système ingénieux permet aussi líutilisation des hublots pour des rideaux de 20 à 45 mm, avec la possibilité de cacher les vis et les broches. Des spéciales joint en néoprène, garantissent une fermeture sécurisée dans n'importe quelle situation métrologique, tandis que la plaque en PMMA épaisse 10 mm est disponible dans les couleurs standards gris fumée. Disponible, séparément comme accessoire, la moustiquaire amovible en plastic blanc.

I nostri passi d'uomo, già impiegati su prestigiose imbarcazioni, testimoniano, più di ogni altra argomentazione l'alta qualità che li contraddistingue. Realizzati in uniche fusione di lega leggera di alluminio successivamente lavorate, lucidate e anodizzate. Le guarnizioni in neoprene e le maniglie di chiusura garantiscono una sicura tenuta in qualsiasi condizione, mentre la lastra in PMMA dello spessore di 10 mm è disponibile nella colorazione standard grigio fumeè. Unitamente alle contenute dimensioni di coperta, di soli 15 mm, il robusto compasso consente di fissare l'apertura del coperchio nella posizione desiderata, da 0 gradi, sino al completo ribaltamento dello stesso a 180 gradi.

Our hatches are fitted to some of the world's most prestigious yachts, a sure sign of their high quality characteristics that distinguish them from other brands. Manufactured from a unique fusion of light aluminium alloy, the hatches a<re then processed, polished and anodised. The neoprene seals and locking handles ensure a secure watertight seal in all conditions. The 10 mm thick PMMA Perspex is supplied in a standard smoked grey colour. The hatch has a very low deck profile of only 15 mm. Strong hatch adjusters allow the hatch to be positioned at any angle from closed through to 180 degrees.

Panneaux de pont en aluminium. Nos trappes, déjà utilisé sur des prestigieux bateaux sont témoins d'une haute qualité. Fabriqués en fusion d'alliage d'aluminium et par la suite travaillé, polies, anodisée. Les joint en néoprène, les poignées de fermeture garantissent une fermeture sécurisée dans n'importe quelle situation. T andis que la plaque en PMMA épaisse 10 mm est disponible dans les couleurs standards gris fumée. Avec les dimensions du pont de 15 mm seulement, la boussole permet de fixer l'ouverture du couvercle dans la position désirée, de 0° à 180°.

WATERTECH

WATERTECH
WATERTECH

Con la serie WATERTECH, Foresti & Suardi vuole fornire un'ulteriore scelta ai propri clienti. Questa linea è improntata con la produzione "in house" di accessori per arredo bagno e la distribuzione esclusiva dei prodotti per rubinetteria Paini.
La diversificazione delle gamme spazia volutamente tra tradizione e innovazione, fino all'ideazione e produzione di oggetti che riscrivono le regole ergonomiche, come il soffione doccia Shower Power RGB, oggetto di stile e tecnica avanzati grazie all'implementazione di sistema led RGB e centralina per cromoterapia, o il miscelatore con l'erogatore ruotabile di 180°, perfetto connubio tra design e flessibilità di utilizzo.
La ricerca della più ampia offerta al cliente finale passa, qui a Predore, dalla realizzazione di serie complete di accessori quali sistemi integrati di gruppi doccia, rubinetti, dispenser e lavabi, caratterizzati da materiali e componenti di altissima qualità, per dare agli ambienti, siano essi nautici o civili, quel plus di stile, qualità e affidabilità che solo chi ha vera passione e amore per il proprio lavoro può garantire.

With the WATERTECH series Foresti & Suardi wants to give a further possibility of choice, offering in house production of accessories, washbasin and special pieces together with exclusivity as official distributor of the Paini faucets and taps.
The diversification of the taps and bathroom accessories moves intentionally between forms and finishes considered "traditional" and very innovative, up to the conceiving and production of new pieces that redefine the ergonomic rules, like the Shower Power RGB rain-shower, object of style and advanced technology, thanks to the RGB integrated led system and chrome-therapy cpu, or like the mixer designed to be rotated of 180°, a perfect bond of design and ergonomic research.
The search of a larger width of the offer passes, here in Predore, through the production of complete series of accessories, includes also integrated shower systems, taps, dispensers and washbasins, every one of them made with state of the art materials and parts, in order to give to the rooms, both civil and marine types, a plus in terms of style, quality and reliability that only a company that has passion and love for his work can guarantee.

Avec la série «WATERTECH», Foresti & Suardi entend fournir un choix majeur à ses propres clients. Nous le faisons détenant la distribution exclusive des produits de robinetterie Paini. Par ailleurs, nous produisons par nous même les lavabos et autres éléments/compléments sanitaires spéciaux, réalisés selon les canons du meilleur design, combinaison ingénieuse de technique et de style qui confèrent à tous nos produits élégance et fonctionnalité.
La diversification de la gamme de robinetterie et accessoires de salles de bain est ainsi un exemple de l'infinie variété de formes et de finitions, des plus traditionnelles aux plus innovantes, superbement ergonomiques, icônes d'identité remarquable, d'agréable utilité.
Ainsi, le pommeau de douche Shower Power RGB, d'une sobriété essentielle, objet de style riche de fonctions, diffusant la lumière qui se nébulise en une pluie régénérante de chromothérapie (grâce à l'insertion d'une cellule LED intégrée au système RGB). Ou encore le mélangeur dont la rotation à 180 ° est le produit de l'ergonomie maximale, permettant un usage total dans la mesure du possible.
Offrir au client final la gamme la plus large d'accessoires est la raison d'être de l' établissement de Foresti & Suardi qui conçoit, élabore et produit en série à Predore, sur les rives du Lac d' Iseo, une ligne complète de mobilier de bain sous la marque «WATERTECH» qui comprend des systèmes intégrés de douche, des robinets et lavabos dessinés et produits dans les matériaux les plus nobles pour s'insérer dans les espaces nautiques et civils où la rigueur de la fonctionnalité se fait aussi vigueur de style, incomparablement Foresti & Suardi.

MOLO

by F&S

Fin.

C BCO M N C
white moka black cognac

Lavabo a cassetto

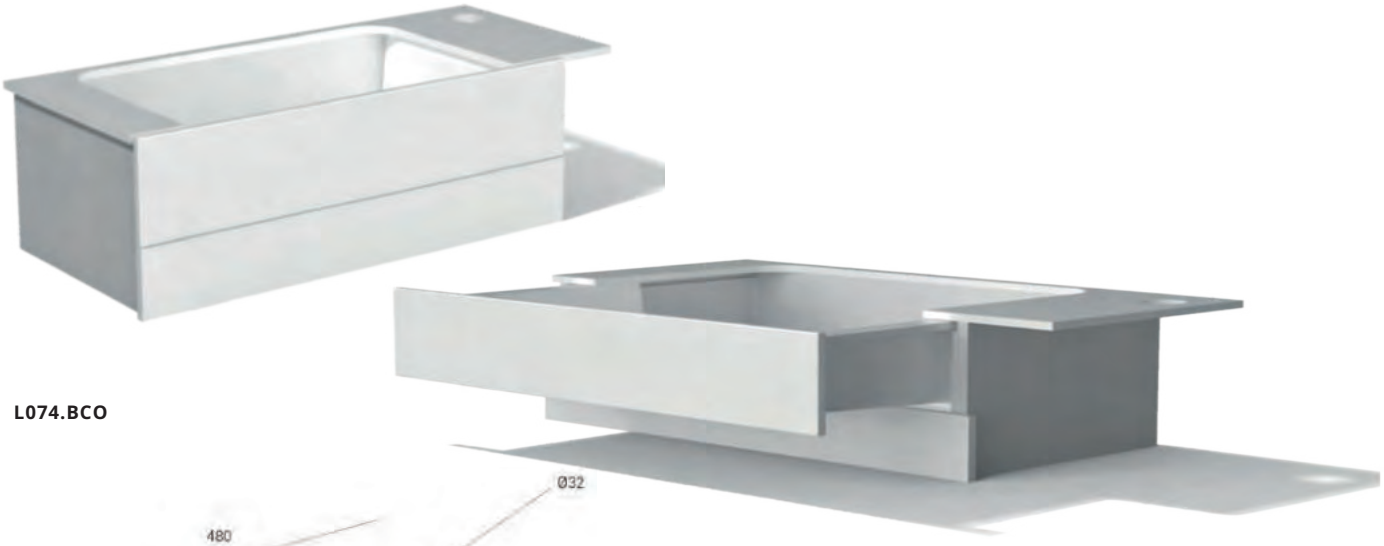

Ideato per il settore nautico, Molo il lavabo estraibie, realizzato in Vetro Freddo® pensato per quegli spazi limitati dove il risparmio di centimetri è prezioso. Vetro Freddo® è un materiale innovativo composto da pigmenti vetrosi e resine. Molo permette alla profondità di 20 cm di arrivare ad una estensione del 60% in più. il peso è di 2,67 kg. Ha una predisposizione per il rubinetto con foro di 32mm.

Drawer washbasin

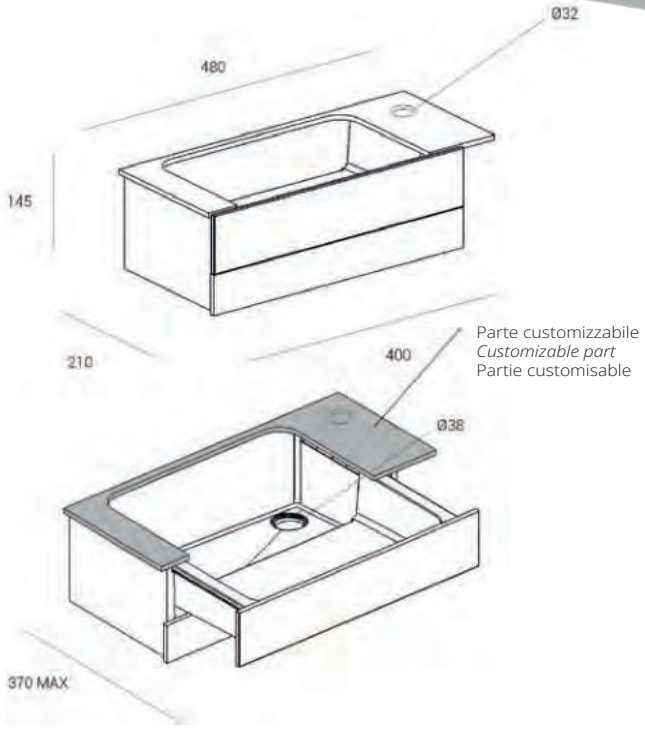

Conceived for the nautical sectors, Molo is the exstensible basin designed for those limited places where saving space is essential. It is fashioned from Vetro Freddo®, an innnovative material composed of glass pigment and resins. Molo 20 cm depht can reach an extra 60% extension. It weights kg 2,67 and it can be supplied with a tap hole of 32mm.

Lavabo à tiroir

Conçu pour le secteur nautique, Molo le lavabo coulissant, en Vetro Freddo, est créé pour les espaces limités où économiser des centimètres est précieux. Vetro Freddo® est un matériau innovant composé de pigments vitreux et de résines. Molo permet à la profondeur de 20 cm d'atteindre une extension de 60% de plus. Le poids est de 2,67 kg. Il a une prédisposition pour le robinet avec un trou de 32 mm.

Fin.

BIANCO white | BEIGE beige | GRIGIO grey | NERO black

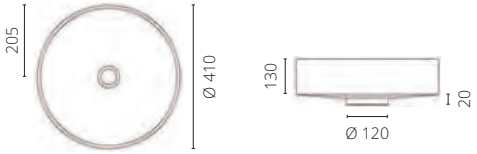

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper). È un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert® is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (nautical, aeronautical, camping). It is a material, which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

Le Pert® est un polymère technologique de qualité exceptionnelle, qui combine un faible poids spécifique à haute résistance mécanique. Particulièrement adapté dans les domaines où la nécessité d'une légèreté de poids est fondamentale (eau, air, camping). C'est un matériel qui permet la réalisation de produits de conception d'un design d'haute qualité, réalisée de façon professionnelle, en respectant les angles, rayons, reliefs et de planéité avec la possibilité de choisir parmi un large évent ail de couleurs qui peuvent être personnalisées sur demande.

Forniti senza ghiera per fissaggio rapido
Supplied without quick locking device
Fournis sans virole de fixation rapide

Barometro ad alta sensibilità con meccanismo MECA. Cassa fissa.
Hi-sensitiv barometer set with MECA - mechanism. Fixed face.
Baromètre marin haute sensibilité avec mécanisme MECA. Boitier fixe.

	Dim. A x B x C
2478.I	Ø 107 x 45 x Ø 150

Pile AA (LR6) non incluse per orologi ed indicatori di maree. */ AA (LR6) Batteries not included in the clocks and tide indicator*. / Piles AA (LR6) non comprises dans les horlogr et indicateur de marées.

Meccanismo barometro MECA
(Meccanismo ad alta sensibilità)

- La minima variazione di pressione viene rilevata dal barometro
- Precisione di ±2 hPa (millibar).
- hPa (hector Pascal) uguale a millibar.
- Il movimento del puntatore del barometro è amplificato di 1,5 volte rispetto ad un barometro convenzionale, consentendo una lettura più facile e reattiva.
- Nell'immagine è illustrato come "l'ampiezza" del movimento del puntatore è amplificata nel meccanismo HI-Sensitive (160°) rispetto al tradizionale barometro (108°).

MECA barometer movement
(High sensitivity mechanism)

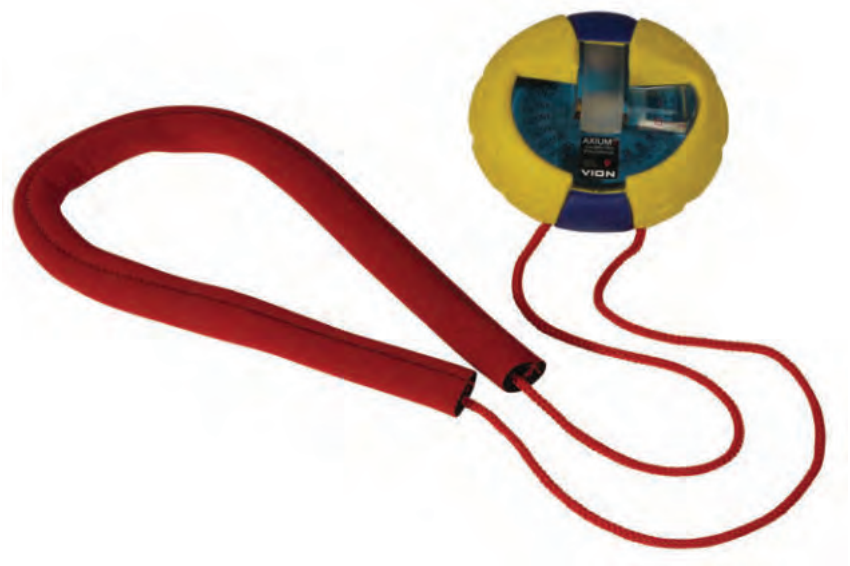

- *The slightest pressure change is detected by the barometer.*
- *Accuracy is ±2 hPa (millibar).*
- *hPa (hector Pascal) equal to millibar.*
- *The movement of the barometer-pointer is amplified 1.5 times compared to the conventional barometer movement resulting in a more reactive and easy reading.*
- *In the picture it is illustrated how the "amplitude" of the movement of the pointer is amplified in the Hi-Sensitive mechanism (160°) compared to the traditional barometer (108°).*

MECA baromètre mouvement
(Haute sensibilite mécanisme)

- La moindre variation de pression est détectée par le baromètre.
- La précision est de ±2 hPa (millibar).
- hPa (hector Pascal) équivalent au millibar.
- Le mouvement de l'aiguille du baromètre est amplifié de 1.5 volt comparé à un baromètre conventionel, ce qui assure une lecture plus simple et plus réactive.
- Sur la droite, on voit illustrée comment l'amplitude du mouvement de l'aiguille se réalise dans le mécanisme "hi sensitive (160°) comparé au baromètre traditional (108°).

LAMPADE > Linea mare

LAMPS > Sea line
LAMPES > Ligne maritime

La collezione rappresenta l'eccellenza nel settore degli elementi illuminanti in stile marino ed include lampade da parete, da tavolo, a soffitto (a sospensione oppure ad incasso), da esterni, fino ad una linea di classiche lampade ad olio. Le forme essenziali sono impreziosite dalla scelta dei migliori materiali e dall'accurata progettazione dei dettagli costruttivi. Le finiture disponibili rendono questi elementi versatili e ne permettono l'installazione in contesti tradizionali oppure più moderni; le superfici spaziano dall'ottone cromato al nero opaco con interno bianco, quest'ultimo dal gusto decisamente contemporaneo. Il vetro può essere montato nelle varianti trasparente e sabbiato, per soddisfare molteplici esigenze di illuminazione.

This collection means excellence in the marine style lighting sector; it includes wall lamps, table lamps, ceiling and suspension chandeliers, outdoor lamps and even a classical oil lamps line. The essential shapes are embellished by the most precious materials and by the accurate design of constructive details. The available finishings make these elements versatile and allow their installation in both traditional or modern environments: the surfaces range from chrome brass to matt black with inner white, the latter with a frank contemporary taste. The glass may be mounted in transparent or sandblasted, to fulfill different needs in terms of lighting.

La collection représente l'excellence dans le secteur de l'éclairage de style marin et comprend des appliques, des lampes de table, des lustres (suspendus ou encastrés), des lampes d'extérieur et même une ligne de lampes à huile classiques. Les formes essentielles sont mises en valeur par le choix des meilleurs matériaux et la conception soignée des détails de construction. Les finitions disponibles rendent ces éléments polyvalents et permettent leur installation dans des environnements traditionnels ou plus modernes ; les surfaces vont du laiton chromé au noir mat avec des intérieurs blancs, ce dernier avec un goût résolument contemporain. Le verre peut être monté dans les variantes de finition transparente et sablée, pour répondre à de multiples besoins d'éclairage.

ARCM.3516 dim. 85,8x46,6x44,5 cm
ARCM.3517 dim. 72x37x36,5 cm

CASSA PORTAOGGETTI
Originariamente studiata per ospitare corde e parabordi. Costruita con doghe in Teak che garantiscono una corretta ventilazione. I piano superiore è solido e ben rifinito e può essere usato come una comoda seduta. I chiavistelli sono in ottone e garantiscono una buona solidità e consentono una chiusura con lucchetto.

THE CHEST
Originally developed as a chest for storing ropes and fenders on deck. Solid teak slatted construction allows air to blow through for drying. The Chest is ideal for stor blankets, barbecue accessories and similar items at home. The teak laid top is most attractive and practical as a seat anywhere.
When used on deck, the bottom of the chest has been made so that it can be trimmed to fit the deck camber. The lid is fitted with solid brass hinges and a brass safety chain has been fitted to prevent it falling back. Complete with strong brass safetycatches which can be fastened with padlocks. Finish is natural sanded te

COFFRE DE PONT
Coffre de pont ou de terrasse en teck massif latté ajouré pour ventiler l'intérieur. Le dessus du coffre peut être utilisé comme un banc. Les pieds peuvent être recoupés à la forme du pont. Idéal pour les cordages, les défenses, mais également pour la terrasse, les outils de jardin et tuyaux d'arrosage, etc...
Pour s'adapter à l'arrondi d'un pont, le fond du coffre est prévu pour etre découpé à la forme. Le couvercle est articulé avec de solides charnières en laiton, et une chaTnette le maintient ouvert. La fermeture est assurée par deux verrous sur lesquels peuvent s'adapter des cadenas. Finition teck naturel poncé fin.

ARCM.3518 dim. 40x50x47 cm

CASSAPANCA TEAK
La parte superiore della cassa può essere utilizzata come seduta o un banco. Ideale anche per uso in bagno come seduta e per lavanderia. Teak solido struttura a doghe offre una buona ventilazione.
Le cerniere sono in acciaio inox.

CHEST OR SEAT
Handy for extra stowage space afloat or ashore. Also ideal for use in bathroom as seat and for laundry. Solid teak slatted construction offers good ventilation. Hinges are stainless steel. Chest is supplied without further fitting in natural sanded finish.

COFFRE
Coffre en teck massif latté ajouré pour ventiler l'intérieur. Le dessus du coffre peut etre utilisé comme un banc. Il trouvera sa place dans toutes les salles de bains. Les ferrures sont en inox et la finition en teck naturel, vous pouvez le huiler, le vernir ou choisir de le laisser en teak naturel.

TEAK PROFILES AND CORNERS

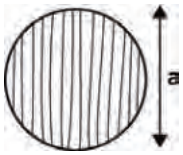

ATTENTION: Les profilés et les angles sont usinés avec le plus grand soin. Néanmoins, les tolérances des machines obligent parfois à ajuster les assemblages.
Les dimensions des planches sont en mm et sont approximatives et peuvent varier en largeur et en épaisseur de 1mm. à cause des tolérances des machines.

LES COINS EXTERNES ONT LA RAINURE À L'INTÉRIEUR. LES COINS INTERNES ONT LA RAINURE À L'EXTÉRIEUR

PLEASE NOTE: Profiles and corners are made as accurately as possible, however due to machine tolerances it may be neccessary to sand joints to match exactly.

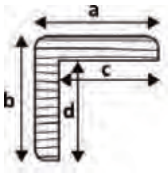

All size in mm, if not mentioned otherwise. Plank sizes are quoted nominal, and can vary by 1mm or so on the width and thickness due to machine tolerances.

OUTSIDE CORNERS HAVE GROOVE INSIDE, INSIDE CORNERS HAVE GROOVE OUTSIDE.

MZ.EV030-Radio
Questo radiocontametri unisce all'eleganza della linea evolution, la praticità coperta, dei collegamenti. sensore Il ricevitore viene facilmente installato sotto coperta, accanto al sensore magnetico. Lo strumento viene collegato in plancia, senza bisogno di collegare nient'altro che l'alimentazione. FREQUENZA DI LAVORO 868 MHz
This radio chain counter offers the elegance of Evolution magnetic line and practice connections. The receiver is easily mounted mounted near magnetic sensor and the instrument is mounted on flybridge connecting only the battery and nothing else. WORKING FREQUENCY 868 MHz
Ce compteur de chaîne allie l'élégance de la ligne évolution à facilité de connexion. Le récepteur est facilement installable l'intérieur, à côté du capteur magnétique. L'instrument se connecte sur le pont, sans rien de plus que le branchement électrique. FRÉQUENCE DE TRAVAIL 868 MHz

Dim. L 100 mm x P 100 mm x H 32 mm

MZ.EV030
Compatto, dal design elegante e funzionale, il contachilometri EV030 si adatta ad ogni tipo di plancia e ad ogni verricello e permette di avere sempre sotto controllo le manovre di ancoraggio dalla postazione di comando.
Compact with elegant functional, it's perfect for every flybridge design and every winch in commerce. In order to have always under control the anchorage manouvres.
Compact et fonctionnel avec un design élégant, le compteur EV030 s'adapte bien à tous cockpits et treuils, et permet d'avoir toujou sous contrôle les mouvements de contrôle d'ancrage à partir du poste manœuvre.

Dim. L 100 mm x P 100 mm x H 32 mm

CARATTERISTICHE TECNICHE DEI CONTAMETRI:
• Indicazioni in 5 lingue
• Utilizzo semplice e immediato
• Allarme di risalita
• Discesa automatica della catena
• Visualizzazione della velocità di manovra
• Visualizzazione tensione alimentazione del verricello
• Possibile scelta tra metri o piedi come unità di misura
• Display LCD grafico ad elevata risoluzione
• Illuminazione display regolabile
• Contrasto display regolabile
• Alimentazione universale (12-24V)
• Contenitori\gusci impermeabili IP 56
SOLO PER EV040
• Radiocomando ricaricabile con presa accendisigari
• Visualizzazione stato di carica del radiocomando

TECHNICAL CHARACTERISTICS OF THE CHAIN COUNTER:
• Indications in 5 languages
• Simple and immediate use
• Up alarm function
• Automatic descent function
• Display of the manoeuvres speed
• Display of the power supply voltage of the motor
• Choice between meters or feet as unit of measure
• High resolution LCD display
• Adjustable Lighting system display
• Adjustable Contrast display
• Universal Feeding (12-24V)
• Watertight case IP 56
ONLY FOR EV040
• Rechargeable radio control with cigarette lighter
• Display of the charge level of the radio unit

CARACTERISTIQUES TECHNIQUES DE L'APPAREIL:
• Informations en 5 langues
• Prise en main facile et immédiate
• Alarme de remontée
• Descente automatique de la chaine
• Affichage de la vitesse de fonctionnement
• Affichage de la tension d'alimentation du treuil
• Choix possible entre l'unité mètre ou pied
• Ecran LCD en haute définition
• Eclairage de l'écran réglable
• Contraste de l'affichage réglable
• Alimentation universelle (12-24V)
• Boitier étanche IP 56
SEULEMENT POUR EV040
• Télécommande rechargeable avec allume-cigare
• Affichage de l'état de charge de la télécommande

MZ.COM.Up/Down
I nuovi pannelli di comando MZ sono disponibili a 2, 4 o 6 tasti così da poter comandare agevolmente qualsiasi tipo di carico con una portata massima di 2 A. Utilizzabile per salpancora, gruette, passerelle altri accessori installati sull'imbarcazione, il pannello ha ridotte dimensioni ed una grafica piacevole e ben adattabile ad ogni stile.
New MZ contrai panels are available in 2 ,4 or 6 buttons models, so that any type of load with a maximum capacity of 2 A. can be easily controlled. Suitable tor use with anchor winches, tack bumpkins, gangways or other accessories fitted to the vessel, these panels are limited in size, smart and adaptable to any style.
Les nouveaux panneaux de controle MZ sont disponibles en 2, 4 ou 6 touches pour contrôler tous les types de charge avec une puissance maximum de 2 A. Conviennent pour guindeau, bossoirs, passerelles ou d'autres accessoires montés sur le navire, ou panneaux sont de petite taille et ont un design adaptable à tous styles.

MZ.K0MPASS-2
MZ.K0MPASS-4
I radiocomandi MZ permettono, come le pulsantiere, l'utilizzo di salpancora, eliche di manovra, gruette e passerelle privilegiando la praticità grazie ad un comando senza fili, maneggevole e comodo. Disponibili a 2 e 4 canali di comando, con ricevitore e trasmettitore stagno IP67. Modalità di frequenza 433Mhz.
Just like the remote contrai units, the MZ radio contrai units can command anchor Winches, bow & stern thrusters, crabs and gangways and are easy to use thanks to the handy remote contrai feature. Available in 2 and 4 channels, with an IP67 watertight receiver and transmitter. Frequency band: 433 Mhz. WORKING FREQUENCY 868 MHz.
Les télécommandes MZ permettent, comme les panneaux de contrôle, l'utilisation de guindeau, de prapulseur d'étrave, de bossoirs et de passerelle en privilégiant la praticité grace à un contrôle sans fil confortable. Disponibles avec 2 ou 4 canaux de contrôle, avec le récepteur et l'émetteur IP67 étanches à l'eau. Fréquence de travail 433Mhz.

Create per l'applicazione in corrente continua ed a tenuta stagna, disponibili a 2, 3, 4, 6 o 8 comandi per il controllo di salpancore, passerelle e gruette. Caratterizzate dalla loro forma anatomica e dotate di impugnatura laterale in gomma morbida per una migliore aderenza, garantiscono un'ampia libertà di movimento e grazie al design accurato ed ultra-moderno, la perfetta adattabilità a qualsiasi tipo di imbarcazione.
Built for direct current applications and perfectly watertight, these remote contrals are available in 2, 3, 4, 6 or 8 controls in arder to command anchor winches, crabs and gangways. Provided with an anatomie shape and an ergonomic soft rubber side grip in arder to have a higher gripping power, they allow an outstanding freedom of movement, and thanks to their accurate ultra-modern design they are perfect for any kind of usage and craft.
Créées pour des applications en courant continu et étanches à l'eau, disponibles en 2, 3, 4, 6 ou 8 commandes pour le contrôle de guindeau, bossoirs et passerelles. Caractérisées par leur forme ergonomique et équipées d'une poignée latérale en caoutchouc souple pour une meilleure adhérence, garantissent la liberté de mouvement. Grace à leur design ultra-moderne s'adaptent parfaitement à tous types de bateaux.

Ripartitore di carica
Charge distributor
Distributeur de frais

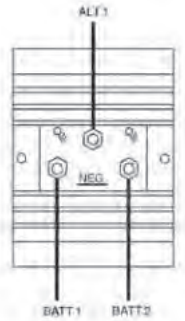

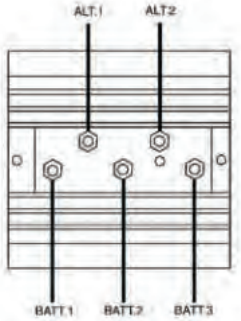

I ripartitori di carica MZ permettono una più efficiente ricarica delle batterie dall'alternatore, grazie ad una caduta di tensione molto ridotta. Disponibili in 4 modelli per ogni tipo di esigenza, sono dotati di ottimi dissipatori in lega leggera anodizzata per un'efficace disperione del calore anche alla massima corrente.

The MZ charge distributors offer an enchanced efficiency of the battery charge from the alternator thanks to a very low voltage drop. Avaiable in 4 models to satisfy any requirements they are composed by light anodized alloy heat sinks which enable an efficient heat dispersion even at maximum current.

Les distributeurs de charge MZ offrent une efficacité accrue de la charge de la batterie de l'alternateur grâce à une chute de tension très faible. Disponible en 4 modèles pour satisfaire n'imporle quelle exigence ils sont équipés de dissipateurs thermiques légers d'alliage anodisé qui permettent une dispersion de chaleur efficace même au courant maximum.

Inverter onda pura
Pure sine wave inverters
Onduleurs purs

Il dispositivo è un inverter DC-AC altamente affidabile, progettato con elettronica di potenza avanzata e tecnologia a microprocessore che offre le sequenti caratteristiche:
- Uscita ad onda pura sinusoidale (THD<5%)
- Relè di bypass opzionale (TR-40)
- Software intelligente per la gestione della potenza erogata (power management)
- Ventola di raffreddamento regolata in base alla temperatura interna e alla potenza erogata
- Pannello remoto CR-8 / CR-16 opzionale
- Comunicazione RS-232
- Contatti non in tensione
- Efficienza massima pari al 90%
- Protezioni di sicurezza avanzate.

Protezione di bassa e alta tensione in ingresso, protezione di sovratemperatura interna, protezione contro l'inversione di polarità (fusibile), protezione di sovraccarico in uscita, protezione contro il cortocircuito in uscita.

The unit is a highly reliable DC-AC inverter system, designed with advanced power electronic and microprocessor technology offering the following features:
- *Pure sine wave output (THD <5%) to operate*
- *Optional bypass relay (TR-40) function*
- *Intelligent software for power management*
- *Loading and temperature controlled cooling fan*
- *CR-8/CR-16 remote management and control*
- *RS-232 communication*
- *Dry contact terminal*
- *Efficiency max. 90%*
- *Advanced Protection Features.*

Input over/under voltage protection, internal over temperature protection, input reverse polarity protection (Fuse), output overload protection, output short circuit protection.

Le dispositif est un onduleur DC-AC très fiable, conçu avec la puissance électronique et la technologie de microprocesseur de pointe qui offre les fonctionnalités suivantes:
- À la sortie d'onde sinusoïdale pure (THD <5%)
- Bypass en option relais (TR-40)
- Un logiciel intelligent pour la gestion de la puissance de sortie (gestion de l'alimentation)
- Le ventilateur de refroidissement contrôlé en fonction de la température alimentation interne et de sortie
- Panneau à distance CR-8 / CR-16 en option
- RS-232 communication
- Contacts non motorisés
- Rendement maximal de 90%
- Gardes de sécurité avancée.

Faible protection et de la tension d'entrée élevée, la protection de surchauffe, protection interne contre l'inversion de polarité (fusible), sortie de protection contre les surcharges, la sortie de protection contre les courts-circuits.

PW2-2BC
Avvisatore sonoro omologato composto da coppia di trombe Ø 200 e Ø180 mm cromate. Nuovo design italiano della base. Completo di elettrovalvole integrate nelle basi, accessori di montaggio e compressore 8 bar. Funzionamento ad aria compressa 6/12 bar. Omologazione RINA, LLOYD'S REGISTER MCA, BUREAU VERITAS e NMMA in accordo alle norme internazionali COLREG 1972 IMO classe IV.
Approved whistle with set of chrome horn Ø 200 and Ø 180 mm. New Italian design base. Complete with integrated electric valves, mounting accessories and 8 bar compressor. For compressed air operation 6/12 bar. Meets COLREG 1972 IMO class IV regulations. Approvals: RINA, LLOYD'S REGISTER MCA, BUREAU VERITAS and NMMA.
Avertisseur sonore homologué, complet de jeu de cornet de Ø 200 et Ø 180 mm chromé. Nouveau design italien de la base. Complet de electrovannes électriques integrées dans les bases , kit de montage , compresseur 8 bar. Fonctionnement à air comprimé de 6/12 bar. Homologation RINA, LLOYD'S REGISTER MCA, BUREAU VERITAS e NMMA en accord avec les normes internationales COLREG 1972 IMO classe IV.

SK1/C
Tromba elettromagnetica per piccole imbarcazioni, particolarmente ideale per fissaggio su roll bar. Corpo in ABS con massimo livello di cromatura classe III di elevata resistenza in ambiente marino con staffa in acciaio inox che permette una facile installazione. La potenza timbrica e le migliori performance della tromba sono visibilmente rafforzate dal design aggressivo, compatto e aerodinamico. Eccellente sistema drenante.
Electromagnetic horn for small boats, particularly suitable for installation on the roll bar. ABS body with the maximum level of chromium plating class III giving the highest resistance in marine environment. With stainless steel fixing bracket allowing easy installation. Its acoustic power and improved performance is complemented by aggressive, compact and streamlined design. Improved water drainage system.
Avertisseur électromagnétique pour petits bateaux, particulièrement indiqué pour montage sur le roll bar. Corps en ABS traité avec le maximum niveau de chromage classe III qui donne une résistance très élevées dans l'environnement marin, avec étrier en acier inoxydable qui permet un montage très facile. La puissance sonore et les meilleures performances de l'avertisseur sont visiblement renforcées par le design agressif, compact et aerodynamique. Remarquable système de drainage.

Trombe nautiche
elettropneumatiche
Electric air horns for boats
Avertisseurs électropneumatiques

NMMA TYPE ACCEPTED

HR1
Tromba elettropneumatica ad incasso con eccezionale potenza sonora. Grande innovazione è il compressore integrato alla tromba che consente l'immediata emissione del suono con la pressione del pulsante. Non è perciò necessario nessun cablaggio del tubo dell'aria. Griglia in ASA e staffa in acciaio. Suono grave, tipicamente nautico. Rapida installazione ad incasso. Adatta per imbarcazioni da trasporto, professionali, yachts sotto i 12 m, draghe, gommoni.
Enclosure type electropneumatc horn for boats. A great innovation is the integrated compressor with horn, enabling immediate sound output when pressing the push button. No air hosing is therefore required. ASA grille and steel bracket. Typically marine low tone and extraordinary powerful sound. Rapid enclosure type installation. Suitable for commercial boats, ferries, yachts under 12 meters, sea dredges and rubber dinghies.
Avertisseur électropneumatique à encastrer avec une exceptionnelle puissance sonore. Innovation remarquable est le compresseur intégré à l'avertisseur qui permet l'immédiate émission du son à la pression du poussoir. Il n'est donc pas nécessaire l'utilisation du tuyau pour l'air. Grille en ASA et étrier en acier. Son grave et typiquement nautique. Indiqué pour bateaux de transport, professionnels, yachts de moins de 12 m, dragues et canots pneumatiques.

UP1
Elettropompa autoadescante dotata di girante speciale per servizi prolungati. Adatta per acqua dolce e salata per uso intermittente. Porta spazzole con calotta impermeabile e passacavo stagno. La pompa può essere utilizzata con il tubo esterno incrementando la portata di 3 l/min. Applicazione principale come pompa di sentina.
Self-priming electric pump with special impeller for prolonged service, suitable for fresh and salt water, for intermittent use. The internal brush holder, with EMI filter included, protects the electric motor from corrosion especially in sea environment. When using the pump with an external tube the flow rate increases by 3 l/min. Main application as a bilge pump.
Pompe électrique auto-amorçante équipée de rotor flexible spéciale pour service prolongé. Etudiée pour utilisation soit avec eau de mer que douce, pour usage intermittent. Le porte balais est à l'intérieur et il est protégé par une calotte, avec galoche étanche. La pompe peut être utilisée avec un tuyau extérieur en augmentant le débit de 3 l/min. Application principale comme pompe de vide cale.

Kit doccia completo di pompe
Shower kit with pumps
Kit douche complet de pompe

SP2
Kit doccia completo di elettropompa automatica compatta e auto-adescante dotata di ingranaggi elicoidali in PTFE, 4 m di tubo bianco con raccordi a vita, erogatore, scatola a imncasso per erogatore. La pompa con corpo e raccordi in ottone nichelato è dotata di pressostato elettronico a voltaggio universale e valvola di non ritorno integrata nel corpo. Il kit è particolarmente adatto per installazioni su yacht, gommoni, barche a vela.
Shower kit complete with compact self-priming automatic electric pump with helical PTFE gears, 4 m white hose with screw connections and hand washer equipped with built-in white container. The pump with nickel-plated brass body and connections has an integrated check valve and electronic pressure system with universal voltage. The kit is especially suitable for yachts, rubber dinghies and sailing boats.
Kit douche complet de pompe électrique compact et auto-amorçante avec engranage hélicoïdes de PTFE, complet de 4 m de tuyau blanc avec raccords à vis, distributeur avec sa boite de fixation. La pompe avec corps et raccords en laiton nickelé est équipée d'un pressostat électronique à voltage universel et clapet anti-retour intégré dans le corps. Le kit est particulièrement indiqué pour installation sur yachts, canots pneumatiques, bateaux à voiles.

Pompe di lavaggio
Deck washing pumps
Pompes de lavage

DP3
Kit completo di elettropompa automatica autoadescante dotata di ingranaggi elicoidali in PTFE, 10 m di tubo a spirale e pistola a spruzzo. La pompa è dotata di filtro in linea, corpo in ottone, pressostato e valvola di non ritorno. Il kit è particolarmente adatto per operazioni di lavaggio con acqua salata e dolce. Pistola a spruzzo con connessione a scatto, blocco del getto, valvola di ritegno e grilletto con regolazione del flusso.
The DP3 is a complete kit including an automatic selfpriming electric pump with helical PTFE gears, 10 m stretchable coil hose and jet gun. The pump has a brass body and is equipped with in-line filter, pressure switch and check valve. The kit is particularly suitable for washing operations either with salt or fresh water. The gun is equipped with quick-click connection, stop-jet, check valve and trigger with jet regulation.
Kit complet de pompe électrique automatique auto-amorçante avec engrenages hélicoïdes de PTFE, 10 m de tuyau allongeable en spirale et pistolet. La pompe est équipée de filtre en ligne, corps de la pompe en laiton, pressostat et clapet antiretour pour emploi de lavage soit avec eau de mer que douce. Pistolet avec connexion à déclenchement, bloc de la sortie d'eau, clapet anti-retour et détente de réglage du flux.

Pompe per travaso olio
Oil transfer pumps
Pompes pour transvasement d'huiles

UP3/OIL
Elettropompa autoadescante dotata di girante speciale per servizi prolungati. Adatta per acqua dolce e salata per uso intermittente. Porta spazzole con calotta impermeabile e passacavo stagno. La pompa può essere utilizzata coin il tubo esteno incrementando la portata di 3 l/min. Applicazione principale come pompa di sentina.
Self-priming electric pump with special impeller for prolonged service, suitable for fresh and salt water, for intermittent use. The internal brush holder, with EMI filter included, protects the electric motor from corrosion especially in sea envronment. When using the pump with an external tube the flow rate increases by 3 l/min. Main application as a bilge pump.
Pompe électrique auto-amorçante équipée de rotor flexible spéciale pour service prolongé. Etudiée pour utilisation soit avec eau de mer soit eau douce, pour usage intermittent. Le porte balais est à l'intérieur et il est protégé par une calotte, avec galoche étanche. La pompe peut être utilisée avec un tuyau extérieur en augmentant le débit de 3 l/min. Application principale comme pompe de vide cale.

SOLAS REGULATION APPROVED
HOMOLOGUÉES NORMES SOLAS

ALB.SIRIUS
L'unica boetta che dura 5 anni, senza doverla sostituire. **L'unica** con sensore si accende a contatto con l'acqua di mare. INNOVATIVA: attivazione salina, si accende solo a contatto con l'acqua. Si può stivare in qualsiasi posizione senza problemi di attivazione casuale. AFFIDABILE: circuito e pile sono protetti e annegati in schiuma poliuretanica per proteggerli dall'ossidazione e garantire il funzionamento. ECONOMICA: pile al litio incluse con una vita attiva di 5 anni.
The only bouy *that lasts 5 years, without having to char.* ***The only sensor*** *in contact with the sea water comes on. INNOVATIVE: saline activation, illuminates only in contact with the water. You can stow in any position without random activation problems. RELIABLE: the batteries are protected circuit and embedded in polyurethane foam (to protect them from oxidation and ensure the fiiunctioning of). ECONOMIC: lithium batteries are included witj an activr life of 5 years.*
La seule bouée qui dure 5 ans, sans avoir à changer. **La seule bouée** avec un capteur qui s'éclaire au contact de l'eau. INNOVANT: le clips qui permet une application facile à la fois horizontale et verticale, à monter sur les gliets de sauvetage. FIABILITÉ: circuit et les batteries sont protégés par une mousse en polyuréthane (pour les protegér de l'oxydation et garantir le fonctionnement). ECONOMIQUE: piles au lithium incluses avec une durée de 5 ans.

BINO 40

BINO 65 BINO 90

La particolarità di questo prodotto è che si adatta a curve molto complesse e il montaggio è rapido. Bino viene fornito in rotoli su misura secondo il tipo di imbarcazione onde evitare giunture e punti critici.
The peculiarity of this product is that it can be adapted to very complex curves and the assembly is fast. Bino is supplied in custom-cut reels to avoid junctions.
La particularité de ce produit est qu'il peut être adapté à des courbes très complexes et l'assemblage est rapide. Bino est fourni en rouleaux à mesure de l'imbarcation pour éviter des jonctions et des points de faiblesse.

DETERGENT PARE BATTAGE

Y-700

AL.016Y7000012
(12 pz x 1L I *12 pcs x 1L* I 12 pcs x 1L)

DETERGENTE PARABORDI
Toglie velocemente lo sporco particolarmente tenace dalle superfici dei parabordi, bottazzo e tutte le parti in gomma, lasciando la struttura alla sua superficie originale (non appiccicosa). Efficace sulle macchie di catrame.
FENDERS DETERGENTS.
It quickly removes tough dirt from the surfaces of the fenders, pulleys covers and all rubber parts, leaving the structure to its original surface (not sticky). Efficient on tar spots.
DÉTERGENT PARE BATTAGES.
Il enlève rapidement la saleté tenace sur les surfaces des pare battages, pare-chocs et toutes les pièces en caoutchouc, en laissant la structure à sa surface d'origine (pas collante). Efficace sur les taches de goudron.

(12 pz x 1L I *12 pcs x 1L* I 12 pcs x 1L)

DETERGENTE SGRASSANTE SCHIUMOGENO PER IL LAVAGGIO MANUALE DI TUTTE SUPERFICI ESTERNE DELLE IMBARCAZIONI (vetri, gelcoat, fibra di vetro, carbonio, plexiglass, legno verniciato, ecc). Speciali polimeri garantiscono un effetto auto asciugante a velo. Dopo il risciacquo, infatti, si verifica un ritiro uniforme e graduale dell'acqua, che evita la formazione di gocce e residui calcareo/salini antiestetici lasciando le superfici pulite e brillanti.
DEGREASING FOAMING DETERGENT FOR MANUAL WASHING OF ALL EXTERIOR SURFACES OF BOATS. (glass, gelcoat, fiberglass, carbon, plexiglass, painted wood etc). Special polymers provide a self-drying icing effect. After rinsing, indeed, it occurs a uniform and gradual withdrawal of the water, which prevents the formation of drops and unsightly calcareous/saline residues, leaving surfaces clean and shiny.
DÉTERGENT DÉGRAISSANT CONCENTRÉ POUR LE LAVAGE MANUEL DE TOUS LES SURFACES. EXTÉRIEURES DE BATEAUX (verre, gelcoat, fibre de verre, carbone, plexiglas, bois peint, etc). Polymères spéciaux offrent un effet auto-séchant. Après le rinçage, en effet, on a un retrait uniforme et progressif de l'eau, ce qui empêche la formation de gouttes et des disgracieux résidus calcaires/salines en laissant les surfaces propres et brillantes.

PASTA ABRASIVA FORTE SUPERMORDENTE. Pasta abrasiva lucidante altamente performante per applicazioni su gelcoat. Rimuove efficacemente rigature derivanti da carteggiature a grana grossa (P600 e 800) e opacità persistenti, secondo la durezza del supporto trattato, conferendo profondità e brillantezza alle superfici. Grazie alla sua formulazione specifica a base di acqua, riduce i tempi di lavorazione, limita le proiezioni di pasta verso l'esterno (non schizza).
ULTRA-STRONG ABRASIVE PASTE. High-pertormance polish abrasive paste tor applications on gelcoat. It ettectively removes scratches caused by coarse-grained sanding (P600 and 800) and persistent opacity, according to the hardness ot the treated surtace, giving depth and shine. Thanks to its specitic tormulation based on water, it reduces the processing time, and it limits the projections ot dough to the outside (it doesn't squirt).
PÂTE ABRASIVE FORTE. Pâte abrasive de polissage de haute performance pour applications sur gelcoat. Élimine efficacement les égratignures causées par un ponçage à gros grain (P600 et 800) et opacités persistantes, selon la dureté de la surface traitée, en donnant profondeur et éclat aux surfaces. Merci à sa formulation spécifique à base d'eau, cette pâte réduit le temps de traitement et limite les projections de la pate vers l'extérieur (pas de projection).

SPEEDUP - SYSTEM. Consiste nel particolare taglio e posizionamento delmateriale espanso. Nel disegno sono evidenziate le masse che concorrono in maniera preponderante alla spinta rotazionale e d'inclinazione. *SPEEDUP - SYSTEM. It consists in the particular cut and placement of theexpanded material. As you can notice in the drawing the masses thatmainly combine to the force of the rotation and the inclination.*
Grace à la forme de la mousse et le positionnement particulier du matériau flottant, ce système permet à la personne de réaliser une rotation et avoir une inclinaison laissant la tete hors de l'eau. (voir schéma)

SPEED-UP PAT.PEND

ROTAZIONE INCLINAZIONE

Un giubbotto di salvataggio deve poter fornire, inprimo luogo, una spinta tale da ruotare ed inclinareuna persona priva di sensi, così che possa mantenerele vie respiratorie libere dall'acqua. Ci sono per questoparametri rigorosi imposti dalle normative internazio-nali. Il nuovo sistema "SPEED-UP" sviluppato e brevettato da Veleria San Giorgio, grazie al particolare taglioe posizionamento del materiale espanso, garantisce risultati eccezionali anche per i giubbotti di salvataggio cosiddetti "rigidi" migliorandone anche la vestibilità grazie alla particolare ergonomia.
A lifejacket have to be able in the first place to spin andto skew the body of an unconscious person over thewater to protect the airway. There are stringent criteriaabout that imposed by the international regulations. The new system "SPEED-UP" developed and paten-ted by Veleria San Giorgio, thanks to the particular cutand placement of the expanded material, assure greatresults for the "rigid" lifejackets too, more easy to wear thanks to the special ergonomic design.
Un gilet de sauvetage doit faire tourner et incliner le corps d'une personne inconsciente dans l'eau pour protéger les voies respiratoires.Ces critères stricts sont imposés par les réglementations internationales. Le nouveau système « Speed-up» développé et breveté par Veleria San Giorgo, grâce à la forme de la mousse et au positionnement de matériau flottant, assure d'excellents résultats pour le gilet de sauvetage, plus facile à porter grâce au design ergonomique.

CONDIZIONI DI VENDITA

TERMS AND SALES CONDITIONS

CONDITIONS DE VENTE

ORDINI
Gli ordini devono pervenire in forma scritta, via fax o via email; non si accettano ordini telefonici. Ciascun ordine deve riportare le seguenti informazioni basilari, importanti per una corretta evasione:
A) Ns codice articolo di riferimento.
B) Destinazione merce, qualora diversa dalla sede legale.
C) Non si accettano ordini inferiori a € 155.00 netto. Il ricevimento di ciascun ordine è seguito dall'invio di una Conferma d'ordine, non ricevendo nessuna comunicazione da parte del committente, riterremo l'ordine confermato e provvederemo all'evasione.

ORDERS
All purchase orders have to be sent to our office by fax or by email; we do not accept phone orders. Each order should contain the following information, essential to despatch it correctly:
A) Our article number.
B) Final destination of goods, if different from registered office.
C) Orders for less than € 155.00 will not be accepted. On receipt of an order, we shall send an Order Confirmation which you should check carefully. If no correction is received, we shall process the order according to our Order Confirmation and the goods will be despatched forthwith.

COMMANDES
Les commandes doivent être faites par écrit, via fax ou via mail ; on n'accepte pas des commandes par téléphone. Chaque commande doit contenir les informations de base, importants pour une correcte gestion :
A) Nos codes articles de référence.
B) destination marchandise, si différente du siège légal.
C) on n'accepte pas des commandes inferieures à 155,00 € nette. La réception de chaque commande est suivie par l'envoi d'une confirmation d'commande, en ne recevant pas une communication de la part du client, on retiendra l'commande comme étant confirmé et on prévoira le traitement de la commande.

SPEDIZIONI
A) Le spedizioni viaggiano di regola in franco fabbrica/ex works, con vs corriere convenzionato – se indicato in fase d'ordine – oppure tramite ns trasportatore con addebito del costo del trasporto in fattura.
B) Tutte le spedizioni effettuate tramite ns corriere, sono da noi assicurate contro i rischi di furto e danneggiamento. Per rendere effettiva tale assicurazione, il cliente, al ricevimento della merce, è tenuto a verificarne lo stato e nel caso in cui venga riscontrato un danno o una mancanza, deve firmare la ricezione con RISERVA, ed inviarci comunicazione scritta via fax o via email, accludendo copia dell'accettazione con RISERVA.
C) Non si accettano reclami trascorsi 8 gg. dalla consegna della merce.
D) Eventuali resi di merce, preventivamente autorizzati dai ns uffici, devono essere effettuati entro un mese dal ricevimento, e devono essere inviati con un documento di reso accompagnatorio.
E) Eventuali ordini in riepilogo verranno spediti alle condizioni previste dal punto F). nel caso in cui i saldi d'ordine siano da annullare, preghiamo i gentili Clienti di comunicarcelo preventivamente in forma scritta.
G) Per quanto riguarda spedizioni su pallet, questi verranno fatturati al prezzo di costo.

DELIVERY
A) Deliveries are on an ex-works basis, with your courier, if indicated in your purchase order – otherwise with ours, adding any transport charge to the invoice.
B) All deliveries completed with our forwarder have an insurance against theft, lost or damaged goods. For this insurance to be effective, the customer has to verify the goods, and in the event of something being wrong, he has to sign the courier receipt 'RESERVE'. A complaint must then be sent to us by fax or email, including a copy of the signed receipt.
C) Complaints sent after 8 days from receipt of goods will not be accepted.
D) Rejected goods must be authorized in advance from our office, and this will be within 1 month from receipt.
E) Backorders will be shipped according to delivery condition in point A). In case you wish to subsequently cancel the order, it's important to receive a written communication from the customer.
F) In cases where delivery needs to be despatched on a pallet, it will be invoiced at cost.

EXPÉDITIONS
A) Les expéditions voyagent en règle en franc usine/ ex Works, avec vs courrier conventionné-si indiqué en phase de commande ou via nos transformateurs avec charge du cout du transport sur la facture.
B) Toutes les expéditions effectuées via nos courriers, sont par nous assurées contre les risques de vol ou de casse. Pour rendre effective telle assurance, le client, à la réception de la marchandise, doit en vérifier l'état et dans le cas il y a un dommage ou un manque doit signer la réception avec RISERVA et nous envoyer une communication via fax ou mail incluant une copie de l'acceptation avec RISERVA.
C) On n'accepte pas réclamations qui suivent les 8 jours de la consigne de la marchandise.
D) Eventuels retours de la marchandise, préventivement autorisés par nos bureaux doivent être effectués entre un mois depuis la réception et doivent être envoyés avec un document de restitution accompagné.
E) Éventuelles commandes en reliquat seront expédiées selon les conditions prévues dans le point.
F). Dans le cas les reliquats de commandes doivent être annulés, on vous demande gentiment de nous le communiquer par écrit à l'avance.
G) Pour ce qui concerne les expéditions sur palettes, celles-ci seront facturées au prix coûtant.

PAGAMENTI
Le condizioni di pagamento verranno indicate al momento della Conferma d'ordine.

PAYMENT
Payment terms are indicated on our Order Confirmation.

PAYEMENT
Les conditions de paiement seront indiquées au moment de la confirmation de la commande.
